

Derm Aestetic Elegance

Cosmetics & Cosmeceuticals

CHANTARELLE Laboratory Derm Aesthetics is a premium brand of dermocosmetics and cosmeceuticals for comprehensive, specialist beauty care in-salon treatments and home skin care available in derm aesthetic, aesthetic medicine and Med Spa salons only. Brand experts care to ensure spectacular effects of preparations, so as to cater to every need and want of salons and their most demanding patrons. For the highest efficacy of preparations, CHANTARELLE combines scientific knowledge and cutting-edge technology with innovative cosmetology & aesthetic medicine solutions.

What sets CHANTARELLE brand apart?

Derm Aesthetic effect + Exclusive design

Derm Aesthetic Elegance

IMMEDIATE AND LONG-TERM EFFECT

Immediate improvement in the skin condition is noticeable after the first application of preparations thanks to advanced active formulas. Systematic use in accordance with the Chantarelle procedures is essential to ensuring long-term effect of a beautiful and healthy skin.

RICH, INNOVATIVE, OPTIMALLY HIGHLY CONCENTRATED ACTIVE FORMULAS

Chantarelle preparations are characterized by richness of biotechnological and plant components that not only allow eliminating ill effects of many skin problems, but also help to get to their root cause. As well as offering targeted action for specific care purposes, active formulas include ingredients that additionally promote healthy skin – they rejuvenate, moisturize, regenerate and soothe. Innovative active components used also in pharmacy have been optimally selected for the ingredients of each preparation to ensure maximum effectiveness.

BIOTECHNOLOGY AND NATURE MISSION

Dermaceutical care regimen offering spectacular effects combines prevention and correction of imperfections related to the most difficult skin problems with comprehensive anti-aging beauty care. Product formulas are based on the latest advances in biotechnology and pharmacy and valuable natural ingredients, ensuring innovative quality of the preparations. The Research and Implementation Department works to ensure the optimum richness of formulas for high efficacy and good skin tolerability.

DERMACEUTICAL CARE REGIMEN - ABOUT 100 PREPARATIONS HOME CARE

A complete line of special-purpose beauty care preparations SPECIAL AESTHETICS allow selecting the right preparations and exact care regimen for a specific skin problem. Care programs include:

- for dry, oily, combination skin, vascular skin, with acne rosacea, sensitive and reactive
- intensely rejuvenating anti-aging: hydrating, nourishing, lifting, wrinkle filling, lipid regeneration, brightening, also with acids for reactive skin.
- against specific skin problems such a spots, scars, excessive hair growth
- special care of the skin around the eyes
- slimming and anti-cellulite preparations

SAFETY AND SECURITY

CHANTARELLE care preparations dedicated to the given type of skin are very well tolerated by skin, even very sensitive skin. All day creams have high UVA/UVB filter protection.

BEAUTY TREATMENT SALONS over 220 professional products and laser equipment

Dermaceutical Chantarelle beauty in-salon treatment regimen includes treatment procedures with over 220 professional preparations and treatments with innovative laser equipment developed on an in-house basis, which allows for a non-invasive and effective use of the latest therapies for dermatology and aesthetic medicine. Home care synergy and salons procedures quarantee the beautiful and healthy skin effect.

PRESTIGIOUS AWARDS & UE PROJECTS

Preparations and laser equipment CHANTARELLE Laboratory Derm Aesthetics have won many prestigious awards in the field of cosmetics and derm aesthetics. CHANTARELLE Laboratory Derm Aesthetics implements a number of scientific and research projects co-financed by the European Union.

SPECIAL AESTHETICS

SPECIAL CARE PREPARATIONS

Special-purpose preparations group with innovative home-care solutions for different skin types. They may be used alone or in combination with preparations from other CHANTARELLE Laboratory Derm Aesthetics product lines, in accordance with the prescribed skin care procedure They include cleansing and peeling cosmeceuticals and dermocosmetics, body care products and specialist skin creams: anti-aging, anti-wrinkle, moisturizing and regenerating.

♦ MAKE-UP REMOVAL, CLEANSERS, PEELINGS:

LUXURY EYE MAKE-UP REMOVER

Thoroughly removes all impurities, including waterproof mascara. Includes cleansing, gentle saponins of common soapwort and smoothing, moisturizing and soothing extracts of marigold, horsetail, hamamelis, sage and green tea, which reduce swelling, improve the condition of capillaries and skin elasticity. Prevents irritation, softens and soothes skin.

Application: Suitable for even the most sensitive skin under the eyes and eyelids, with the comfort of gentle and thorough cleansing.

Active formula: extracts from common soapwort, marigold, horsetail, hamamelis, sage and green tea.

MANDELIC ANTI-BACTERIAL CLEANSER 10.5% pH 3.5

Effectively cleansing and sebum removing lotion with the content of almond, myrrh extract and natural saponins. Helps cleanse skin pores and clean clogged pores. At the same time, it normalizes sebum secretion, skin hydration, has anti-bacterial and anti-irritation properties. Leaves skin fresh, evenly cleansed, and ready for active ingredients as sebum is removed.

Application: Suitable for combination skin, sensitive, irritated, dermatosis skin, with dry skin parts and oily-T zone. For very dry and flaky skin. Avoid contact with areas around the eyes and mucous membranes

Active ingredients: mandelic acid, myrrh, common soapwort extract

CD0528 100 ml

AHA SAPONARIA CLEANSER 11% pH 4.0

Containing lactic acid it exfoliates dead skin cells, removes impurities and excess sebum, moisturizes, soothes skin and has antibacterial properties. It consists of 6% acid, along with purifying saponins from common soapwort (Saponaria) as well as antibacterial and anti-inflammatory extracts. Helps unclog skin pores, prepares skin for the next phase of care.

Application: Suitable for oily and acne skin, combination skin with a predominance of oily or very dry and skin with blackheads. Do not apply to skin with irritation symptoms and inflamed, avoid contact with areas around the eves and mucous membranes.

Active ingredients: 6% lactic acid, common soapwort extract 5%, extracts of marigold, chamomile, lime flowers and cornflower

CD0536 100 ml

MICRODERMABRASION 20% STRONG PEELING

Intensive peel with 20% of sapphire powder content, excellent for reducing wrinkles, scars and stretch marks. Removes dead cells and impurities, leaving skin soft and silky. Smoothes and reduces wrinkles, stimulates cell renewal, improves hydration. The additional active ingredients include softening extracts of common soapwort (saponaria), aloe and an antibacterial extract of sage.

Application: Suitable for mature, dry, thin, flabby, gray or discolored skin; recommended for reducing spots, scars and stretch marks. Do not apply to vascular skin, irritated, inflamed, with undiagnosed discoloration, wounded skin. Avoid contact with areas around the eyes and mucous membranes.

Active ingredients: sapphire powder 20%, common soapwort aloe and sage extracts CD0414 50 ml

LUMI-CREAM FACE & EYELID BRIGHTENING PEELING

Gentlly exfoliating preparation that effectively smoothes, brightens, evens and reduces spots of different etiology. Contains papaya enzymes, purifying saponins of common soapwort (saponaria), an extract of rhubarb which hydrates and stimulates keratinization, as well as an extract of Indian Punarnava, promoting brightening.

Application: Suitable for all skin types, including sensitive and vascular. Also perfect for care of skin around the eyes.

Active ingredients: papaya enzymes and common soapwort, rhubarb and Punarnava extracts

CD0413 50 ml

♦ REJUVENATION AND LIGHTEN WITH ACIDS:

RENEWAL GLYCOLAC AHA NIGHT CREAM 10% pH 3.6

Anti-wrinkle cream, moisturizes and stimulates regeneration of collagen fibers. Promotes keratinization, reduces scars and discolorations. Removes dead skin cells and impurities. Increases skin moisture, regulates the function of sebaceous glands, evens skin tone. Contains moisturizing and gently exfoliating glycolic and lactic acids and regenerating Rosa Mosqueta oil and Shea butter.

Application: Suitable for all skin types, except sensitive; especially recommended for skin with wrinkles, dry, flabby and mature. Recommended for reducing scars and stretch marks. Do not apply to skin with irritation symptoms or lesions and on the areas around the eyes and mucous membranes.

Active ingredients: lycolic acid 6%, lactic acid 4%, Rosa Mosqueta oil, Shea butter CD1430.50 ml

INTENSE MANDELIC PHA NIGHT CREAM 15% pH 4.0

Anti-bacterial, regulates sebum balance and skin moisture. Stimulates regeneration of collagen fibers, smoothes skin tone, reduces discolorations. Removes dead skin cells, sebum, cleanses clogged pores, normalizes water-lipid balance and highly moisturizes. Contains antibacterial and moisturizing mandelic acid, gently exfoliating gluconolactone, brightening common soapwort extract and regenerating Shea butter and avocado oil.

Application: Suitable for all skin types, even with the symptoms of inflammation, with clogged pores and blackheads. For skin requiring rejuvenation, reconstruction, regulation of moisturizing and sebum secretion, mature, dry, flabby or having an unhealthy skin tone. Do not apply to sensitive skin and areas around the eyes. Avoid contact with muccus membranes.

Active ingredients: mandelic acid 10%, gluconolactone acid PHA 5%, common soapwort (arbutin) extract. Shea butter, avocado oil

CD1432 50 ml

DEPIGMI RICH WHITENING CREAM

Rich cream, having depigmenting, rejuvenating and brightening effects. Reduces discoloration and pigmentation spots, evens skin tone. Regulates melanogenesis and inhibits the production of melanin, thus preventing the formation of new spots, brightening the existing ones concurrently. The lower pH (5.5) increases antibacterial protection. The cream contains a complex of actively regulating and discoloration-reducing components, including kojic acid, salicylic acid and azelaic acid. Application: Suitable for skin with spots and discoloration, skin pigmentation disorder, uneven coloration and for post-inflammatory or post-acne skin changes. Appropriate for night care. Do not apply to sensitive skin and the area around the eyes and mucous membranes. Active ingredients: kojic acid 1%, azelaic acid AzA 0.5% salicylic acid BHA 0.5%, Lumiskin* 4%, common soapwort (arbutin) extract 4%, Emblica 2%

ANTI-AGEING LACTIC PHA NIGHT Cream 13% pH 4.0

Anti-wrinkle cream - stimulates keratinization, smoothes skin tone, reduces pigmentation and intensively moisturizes. Thoroughly cleanses the skin, removes dead skin cells and impurities. Accelerates cell renewal and the synthesis of elastic fibers. Contains rejuvenating and gently exfoliating lactic and gluconolactone acids, brightening bearberry extract and regenerating Rosa Mosqueta oil.

Application: Suitable for every skin type, except sensitive. Dedicated to flabby, thin or mature skin, with wrinkles, pigment spots and losing elasticity due to age. Do not apply to skin with irritation symptoms, skin lesions and the areas around the eves and mucous membranes.

Active ingredients: lactic acid 7%, gluconolactone acid PHA 6%, bearberry extracts (arbutin), oil Rosa Mosqueta

CD1431 50 ml

WHITE BIO-HYDROQUINONE NIGHT CREAM 16% pH 5.0

This powerful formula normalizes melanogenesis, reduces discoloration, evens skin tone. Contains Bio-Hydroquinone - a component of plant origin with whitening properties comparable to hydroquinone, but without the adverse effects on the human body. Contains also strong depigmenting components, such as: Lumiskin', Emblica, bearberry extract (arbutin) and anti-inflammatory and exfoliating Azeloglycina® - a modern combination of azelaic acid and the glycine aminoacid.

Application: Designed for skin with various origins of spots such as age, caused by exposure to sunlight, hormonal, melasma-induced. Do not apply to skin with irritation symptoms, inflamed and the skin around the eyes. Avoid contact with mucous membranes.

Active ingredients: Bio-Hydroquinone, Lumiskin™, Emblica extract, common bearberry extract (arbutin), Azeloglycina®

CD1433 50 ml

♦ EVERYDAY CARE CREAM:

LICORICE A MOISTURISING DAY CREAM SPF 20 UVA/UVB

Moisturising cream with liquorice and vitamin A SPF20 UVA/UVB UVB for everyday care suitable for all skin types, including sensitive and vascular, requiring moisturizing and condition improvement - regulates processes of callous skin, regenerates lipid barrier. Smooths first wrinkles, lightens the color of skin. Soothes roughness and symptoms of irritation.

Active ingredients: Licorice Root Extract, Vitamin A and B3, Algisium organic silica, extracts of hamamelis, quinoa and horsetail CD1399 50 ml

HIBISCUS A REGENERATING NIGHT CREAM

Regenerating night cream with hibiscus oil and vitamin A for everyday care; suitable for all skin types, including sensitive and vascular skin, demanding regeneration, smoothing and elastic improvement, recommended after aesthetic procedures. Smoothes wrinkles and roughness of the skin, brightens colors, moisturizes and improves elasticity. Relieves symptoms of irritation, antibacterial.

Active ingredients: Hibiscus Oil, Vitamin A, Hyaluronic Acid 1 MDa, hydrolyzed silk proteins, Tasmanian pepper berries extract, Alqisium organic silica

CD1400 50 ml

♦ SPECIAL-PURPOSE PREPARATIONS:

RETINOCAL PURE CREAM INTENSE ANTI-ACNE

Cream for face, neck and neckline skin. Reduces symptoms of inflammation and discoloration, constricts pores. Brightens and evens skin tone. At the same time produces an anti-wrinkle and rejuvenating effect. Contains retino-pept, the next generation peptide, which is as efficient as retinoic acid, but without the adverse effects on the skin. e.g. irritation.

Application: Recommended for impure or oily skin, with symptoms of youth or adult acne and inflammation, as well as for mature skin. Do not apply to skin around the eyes.

Active ingredients: peptide RETINO-PEPT, vitamin E, Shea butter, avocado oil

CD1434 50 ml

F-EPILDERMFACE CREAM ANTI HAIR GROWTH FACE & NECK CREAM

A cream for the face and neck skin, inhibiting hair growth, reducing unwanted hair, with softening, moisturizing, soothing and antibacterial plant complexes. Contains Pilhib - an active ingredient that causes hair protein denaturation (in hair bulbs). By penetrating into the hair follicles - reduces the regrowth of the hair shaft. The active formula additionally contains urea and softening, brightening, soothing and antibacterial extracts of hamamelis, white lily, marigold, burdock, sage, Wakame algae, turmeric, papaya. The cream also contains cooling and soothing menthol.

Application: The preparation should be applied systematically in the evening to the cleansed skin of the face and / or neck areas where inhibition of hair growth is desirable, preferably after depilation, to achieve the best effects. It is especially recommended after in-salon treatment and home depilation or after laser PHOTO-DYNAMIQ® hair reduction. Avoid contact with eye areas and mucous membranes.

Active ingredients: Pilhib, urea, hamamelis extracts, white lily, marigold, burdock, sage, Wakame algea, turmeric, papaya and menthol

CD1397 50 ml

RESCUE TOPICAL CREAM HAND & FOOT & BODY

Cream designed for intensive regeneration and moisturization, for topical application. Recommended for exceptionally dry, rough, damaged or cracked skin on hands, feet and body. Restores the lipid protection and deeply moisturizes. The powerful formula contains active ingredients: Hydra-filaggrin, lactic acid esters, urea and Xerifin - which strongly and immediately moisturizes, regulates the keratinization process. It also contains smoothing blue retinol, ATP-Stim which boosts cellular energy, rejuvenating vitamins A and E, regenerating plant extracts.

Application: Designed for the skin of hands and dry body parts like knees, elbows and feet. It should be applied each time in case of roughness discomfort and excessive skin tension.

Active ingredients: Hydra-filaggrin, blue retinol, lactic acid esters, Xerifin, urea, Shea butter oil, rose, ATP-Stim, golden root extract, vitamin A, vitamin E, extracts of horsetail, marigold and burdock allantoin

CD1715 50 ml

B-EPILDERM BODY BALM ANTI-HAIR GROWTH

A cream for face and neck skin, inhibiting hair regrowth, reducing unwanted hair, with softening, moisturizing, soothing and antibacterial plant complexes. Contains Pilhib - an active ingredient that causes hair protein denaturation (in hair bulbs). By penetrating into the hair follicles - reduces the regrowth of the hair shaft. The active formula additionally contains urea and softening, brightening, soothing and antibacterial extracts of hamamelis, white lily, marigold, burdock, sage, Wakame algae, turmeric, papaya. The cream also contains cooling and soothing menthol.

Application: The preparation should be applied systematically in the evening to cleansed skin of the face and / or neck areas where hair growth inhibition is desirable, preferably after depilation, to achieve the best effects. It is especially recommended after in-salon treatment and home depilation or after laser PHOTO-DYNAMIQ® hair reduction. Avoid contact with eye areas and mucous membranes.

Active ingredients: Pilhib, urea, allantoin, borage extracts, linen, horse chestnut, sage, papaya, Wakame algae

CD1778 200 ml

♦ ANTI-WRINKLE REGENERATION AND SKIN PROTECTION:

CO-BOTULINE PREMIUM ANTI-WRINKLE CREAM

Reduces the first mimic wrinkles on the face, neck and neckline, especially in the forehead area, nasolabial folds lines and lateral neck and chin wrinkles. Leaves skin smoother, moisturized and rejuvenated. Contains neuropeptide Argireline^{IM}, which promotes the relaxing of facial muscles, reduces the depth and size of wrinkles, Xeryfin which is smoothing and soothing and extracts of green tea, rice and white Iily bulbs.

Application: Recommended for all types of face skin, reversing the first signs of wrinkles. Can be used under makeup.

Active ingredients: neuropeptide Co-botulinum (Argireline™), extracts of rice, white lily, green tea, regenerating Shea butter, Xeryfin CD1350.50 ml

BB AFTER EXTREME REGENERATION Day Cream BioRetinol A SPF25 UVA/UVB

Non-perfumed, powerfully rejuvenating and regenerating day cream with pigments evening the skin tone, designed for face, neck and neckline skin. Produces anti-wrinkle and rejuvenating effects, stimulates the production of elastic fibers. Also helps maintain the effects of the aesthetic and medical treatments. Contains the GLI biomimetic peptide complex, which controls the correct reconstruction of the epidermis with proper parameters; DHMC - the plant equivalent of retinol - regulating processes of keratinization and moisturizing and soothing plant extracts.

Application: Suitable for all skin types. Can be used under makeup.

Active ingredients: Peptide Complex GLI, DHMC (vegetable retinol), a derivative of vitamin A, pigments that even skin tones, extracts of linden tree and hamamelis, mineral and organic filters UVA/UVB

CD1395 50 ml

AFTER NIGHT SERUM FACE & EYES FIRMING PEPTIDES & BIORETINOL A

Non-perfumed, highly rejuvenating night serum for face, neck, neckline and eye areas. Provides an effective wrinkle smoothing, litting and firming effect. Recommended also for maintaining the effects of aesthetic and medical treatments. Contains anti-aging Renestril peptide complex - stimulating the restoration of skin elasticity, peptide biomimetic GLI complex - controlling the correct reconstruction of the epidermis; DHMC - regulating the process of keratinization and normalizing transepidermal water loss; and soothing herbal extracts.

Application: Suitable for all skin types.

Active ingredients: Renestril, Peptide complex GLI, DHMC (plant retinol), a derivative of vitamin A, plant extracts of linden and hamamelis

CD1396 30 ml

GABA Cx 35% FILL-IN EXTREME WRINKLE FILLER C'MODULAR AGE

Innovative concentrate spectacularly rejuvenating face skin, eyelids and skin under the eyes. Contains a unique formula of botanical neurotransmitters and silicone polymers – resulting in immediate and permanent wrinkle reduction. The innovative nerve synapses blocking mechanism causes muscle relaxation and ensures clearly visible skin smoothing. Silicone polymers optically reduce wrinkles with the Soft-focus effect. The preparation stimulates collagen and hyaluronic acid synthesis, improves skin firmness and hydration.

Application: Designed for face skin, especially around the eyes with typical signs of aging and UV photo-aging, wrinkles and discoloration, rough, dry and exceptionally dry skin damaged by excessive sun exposure.

Active ingredients: Cx GABA complex, HYA-STIM 3 Peptide, vitamin E, allantoin CD1396 30 ml

I COVER SILVER CREAM SPF50 UVA/UVB

Antibacterial cream containing silver having a light texture and a very high protection SPF50 UVA/UVB. Contains a moisturizing emollitent derived from lactic acid, regenerating Shea butter, rebuilding vitamin A, soothing allantoin and antibacterial silver. Among the components is also a natural filter - annatto oil with antioxidant and softening properties. Makes the skin soft, leaving it matified and velvety.

Application: Apart from the protective and regenerative effects serving as a strong UV filter, it is also recommended for reducing inflammatory symptoms for oily, acne and problematic skin.

Active ingredients: lactic esters acid, annatto oil, Shea butter, allantoin, vitamin A, a liquid SPF50 UVA/UVB filter, powdered silver

CD1353 50 ml

RED STOP Couperose & Sensitive Rosacea Skin

ANTI-REDNESS DERMOEXPERT

Unique line of all-year-round care preparations with spectacular effects: strengthening, soothing, moisturizing and smoothing the skin, reducing vascular spots and symptoms of inflammation for sensitive skin types, with symptoms of rosacea, prone to redness and irritation.

The innovative, active ingredients base consists of lactobionic acids, gluconolactone and azelaic acid, antioxidant flavonoids and vitamin C, moisturizing, anti-stress and soothing ingredients, as well as numerous herbal extracts.

RED STOP EFFECT

reduction of irritation symptoms - redness and vascular lesions strengthening, sealing, shrinking and improvement of capillaries' elasticity strengthening and reconstruction of the epidermal barrier function and improving skin condition stress resistance strengthening and auto regeneration

ANTI-REDNESS CLEANSING MILK

Anti-redness gel lotion for sensitive vascular skin with symptoms of rosacea, prone to redness and irritation. Has moisturizing, soothing and calming effects, improves blood circulation and blood vessel sealing. The preparations formula combines the effect of gently cleansing common soapwort extract and moisturizing, soothing and redness reducing extracts of chamomile, marigold, linden, cornflower and witch hazel. The skin is cleansed, freshened, soothed and ready for next phases of treatment.

Active ingredients: AzA azelaic acid, BHA salicylic acid, Redlestine, Stress-Blocker, extracts of sage, ginkgo biloba, cocoa, lemon lime and ivy, allantoin, vitamin E, kaolin CD0814 50 ml

PREPARATIONS WITH ACIDS PHA AND AZA
CAN BE USED ALL YEAR ROUND
DO NOT CAUSE PHOTOTOXIC
AND PHOTOALLERGIC REACTIONS.
DERMATOLOGICALLY TESTED

ROSACEA AZA ACID DAY CREAM SPF35 UVA/UVB

Non-perfumed cream with a light texture does not clog the pores, soothes, has antibacterial, stress reducing properties, with a very high SPF protection. Designed for sensitive skin with symptoms of rosacea, prone to redness and irritation. Reduces redness and irritation, has soothing and calming properties. Reduces hyperactivity and skin reactivity to external factors, stimulates B-endorphin release. Antibacterial, reduces the symptoms of inflammation. Has a moisturizing, softening and smoothing effect. Can be used under makeup.

Active ingredients: AZA azelaic acid, Stress-Blocker, Redlestine, vitamin C-SAP, milk thistle, common soapwort, orange, ginkgo biloba, Vilcacora and apple extract, macadamia oil, Shea butter, urea, photo stable UVA/UVB

ROSACEA AZA ACID NIGHT CREAM

Non-perfumed, azelaic acid based cream, with a light texture that does not clop pores. Soothes, has anti-bacterial and stress reducing properties. Suitable for sensitive skin, with symptoms of rosacea, prone to redness and irritation. Reduces redness and irritation, soothes and calms the skin. Brightens and evens skin tone. Increases the epidermal barrier resistance, promotes auto-regeneration. Reduces skin hyperactivity and reactivity to external factors, stimulating the release of B-endorphins providing an anti-stress effect. Has antibacterial and anti inflammatory properties. Moisturizes, regenerates, reduces wrinkles and improves face contour. Active ingredients: AzA azelaic acid, Stress-Blocker, Redlestine, vitamin C-SAP, coenzyme R (biotin), an extract of milk thistle extract, common soapwort, orange, ginkgo biloba, Vilcacora and apples, macadamia oil, Shea butter, urea

RED STOP ACTIV FORMULA

LACTOBIONIC ACID (PHA) is a next-generation antioxidant acid that gently exfoliates, but without irritating properties. Stimulates skin renewal, moisturizes. Reduces telangiectasias and dilated capillaries. Effectively binds water, strengthening skin barrier. Can be used all-year round.

GLUCONOLACTONE ACID (PHA) non-irritating, highly moisturizing substance that strengthens the epidermal barrier, accelerates the regeneration, regulates keratinization. Builds up skin resistance to aggressive external factors.

AZELAIC ACID AZA [KA] antibacterial, reduces symptoms of inflammatory lesions - blemish, papules, redness and erythema. Lightens skin discoloration and scars.

TI-RUTIN an antioxidant flavonoid that can enhance flexibility and tightness of capillaries, stimulates microcirculation. Reduces symptoms of inflammation and irritation, eases skin tension discomfort.

REDLESTINE an antioxidant flavonoid - reduces the symptoms of inflammation, protects skin against the loss of proper hydration and inhibits the aging process.

DNA-RENOVER regenerates, strengthens the skin barrier function, hydration and firmness. Reduces the symptoms of redness, skin irritation and stress.

VITAMIN C-SAP a stable form with the rejuvenating effect, stimulating the synthesis of collagen. Has anti radical, anti-bacterial and skin lightening properties. Strengthens dilated capillaries.

STRESS-BLOCKER helps to protect the skin against aggressive external factors. Stimulates the release of the hormone of happiness - B-endorphin. Has anti-stress and soothing effects, reduces erythema.

COENZYME R biotin complex with vitamin C reduces redness and spots. Evens skin tone. Strengthens resistance to irritation and helps skin regenerate.

POLIYPEPTIDES COMPLEX reduces dark circles under the eyes caused by the accumulation of hemoglobin and by-products of its decomposition such as bilirubin, biliverdin and iron. Rejuvenates and improves firmness.

ISOTONIC BIO-MINERAL COMPLEX remineralizes, moisturizes, has antioxidant properties. Contains micro-and macro elements: lithium, magnesium, potassium, aluminum, zinc, copper, manganese, sodium, cobalt.

ACTIVE FORMULA ENRICHED WITH:

UREA, ALLANTOIN, SHEA BUTTER, AVOCADO OIL, OIL MACADAMIA, NUMEROUS ANTI INFLAMMATORY EXTRACTS, moisturizing and soothing antiradical ingredients: CHAMOMILE, MARIGOLD, LINDEN TREE, CORNFLOWER, HORSETAIL, LIME, BUTCHER'S BROOM, COMMON SOAPWOR, ORANGE, GINKGO-BILOBA, APPLE, MILK THISTLE, VILCACORA, IVY

NORMACELL

MOISTURE AND SEBUM BALANCE FOR COMBINATION SKIN

All year-round program for combination skin with mandelic acid, myrrh and milk proteins, regulating sebum secretion and with moisturizing properties. NORMACELL line normalizes sebum secretion in oily parts of the face and provides the perfect moisturizing in dry skin parts. Prevents the formation of irritation and has anti-inflammatory effects. Restores a sense of comfort, freshness and feeling of a well moisturized skin.

Exceptional line of preparations for the normalization, cleansing and matting of the combination skin with the T-zone and the oily skin areas or excessive sebum secretion, with enlarged pores, signs of inflammation and acne or dry, flaky, irritated skin.

NORMACELL EFFECT

normalizes sebum secretion and unclogs pores reduces inflammation, stasis lesions and blackheads restores proper keratinization and strengthens the protective skin barrier increases hydration and lipid skin protection soothes skin irritation and harshness reduces skin shine

BALANCING CLEANSING MILK

Gentle, moisturizing emulsion regulating sebum secretion. Effectively removes impurities and makeup without drying skin; unclogs pores. Extract of myrrh, a complex of six plant extracts Phyto-6 and passion flower oil are a source of regulating, antibacterial and soothing components.

BALANCING BUFFER TONER

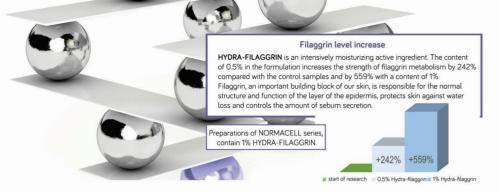

Cleanses and tones. Normalizes the activity of sebaceous glands. Soothes symptoms of irritation, redness and burning sensation, has antibacterial properties. Restores the comfort of moisture and freshness. Also perfect as a soothing and calming compress. Contains the extract of myrrh and six plant extracts complex Phyto-6. CD0214 200 ml

MANDELIC ANTI-BACTERIAL CLEANSER LOTION 10.5% pH 3.5

The content of mandelic acid, myrrh and natural saponins makes it a great preparation for gentle and effective cleansing and sebum removal. Clears pores and hair follicles clogged by sebum. At the same time normalizes the secretion of sebum and skin hydration, acts as an anti-bacterial agent and reduces irritation symptoms. The skin is fresh, evenly cleaned, and sebum removed; leaves skin ready to absorb active ingredients.

CD0528 100 ml

FILAGGRIN EXTREME NORMALISING SERUM

Aimed at restoring the water-lipid balance and strongly moisturizing, it regulates the activity of the sebaceous glands in oily and dry skin areas. Has calming and antibacterial properties, reduces symptoms of irritation. Provides a sense of comfort due to the fresh, moisturized skin. The active formula contains hydrating ingredients: Hydra-filaggrin, urea, and antibacterial Xerifin sebum regulators: Ramiseb extract, myrrh and six plant extracts complex Phyto-6.

CD1329 30 ml

MATT NORMALISING DAY CREAM SPF20 UVA/UVB

Cream with a high protection SPF20 UVA / UVB for the skin of the face, neck and neckline. Regenerates the hydrolipidic film, moisturizes and regulates the activity of sebaceous glands in oily and dry skin areas. Rebuild the lipid structures and increases the consistency of the epidermis. Soothes symptoms of irritation and redness. Has antibacterial properties. Restores a comfortable sense of a smoothed and moisturized skin. Contains hydrating ingredients: Hydra-filaggrin and Xerifin, antibacterial sebum regulators: myrrh extract, hydrolyzed milk protein and a complex of six plant extracts - Phyto-6, soothing and smoothing passion flowers oil. Matting component MATT-W reduces skin shine. The cream can be used under makeup.

MANDELIC ACID NIGHT CREAM 2%

Cream for face, neck and the neckline skin. Improves keratinization of the epidermis, normalizes water-lipid balance. As well as highly moisturizing, it also regulates the activity of sebaceous glands. Mandelic acid exfoliates the skin, reduces the symptoms of inflammation, has antibacterial properties. Removes blackheads and constrics pores, hydrates skin and brightens its tone. Hydra-filaggrin, Xerifin and urea ensure hydration, the extract of myrrh and the light passion fruit flower oil reduce excess sebum, smoothen and soothe skin. CD1341 50 ml

NORMACELL ACTIVE FORMULA

MANDELIC ACID alpha-hydroxy acid derived from bitter almonds is a gentle exfoliating agent with unique antibacterial properties. It regulates cell renewal, improves skin structure and tone. Stimulates collagen synthesis, enhances hydration and elasticity of the skin. Suitable for all year-round application.

MIRRA extract of the exotic Commiphora resin, restores proper functions of the sebaceous glands, removes excess sebum, has soothing, antibacterial and anti-irritation properties.

RAMISEB zinc salt of L-PCA complex, and extracts of Hedge mustard and burdock, regulates sebum, has antiseborrheic and antibacterial properties.

HYDROLYZED MILK PROTEINS control the level of sebum – reducing it in the oily and dry areas, stimulates and rebuilds the hydrolipidic film.

HYDRA-FILAGGRIN stimulates aquaporin water and urea transport and production of filaggrin, essential to the normal structure of the skin, a balanced hydration and sebum.

XERIFIN immediate and long-lasting moisturizing from clary sage, rich in sugars and flavonoids.

PHYTO-6 contains MISTLETOE, common SEA BUCKTHORN, HOP, LEMON BALM, FENNEL, CHAMOMILE, YARROW extracts. Has cleansing, soothing and antiseborrheic properties.

Emollient PASSIFLORA EDULIS SEED OIL soothing, anti-stress, the natural serotonin, maltol and flavonoids, vitamins A, B, C and potassium.

UREA basic ingredient of NMF, highly moisturizing and softening.

NATURAL SAPONINS of common soapwort (saponaria), effectively cleansing and sebum-removing, even for sensitive skin.

MATT-W matting component having the structure of a mineral photo-filter, masks excess sebum.

IDEAL PURE

IDEAL REGULATING PROGRAM FOR OILY, ACNE SKIN

A line of specialized preparations reducing excess sebum and symptoms of inflammation, moisturizes and has anti-bacterial properties; for oily skin and skin with seborrheic dermatitis, with symptoms of youth and adult acne as well as blackheads and enlarged pores. Suitable for application at any time of the year.

The base for this preparations are original, active sebo-regulating ingredients, salicylic and gluconolactone acids, and extracts of 10 plants with anti-inflammatory and soothing properties.

IDEAL PURE EFFECT

sebum secretion control by inhibiting the production of α - reductase enzyme cleansing of sebaceous glands, reduction inf blackheads systematic constriction of dilated pores promotion of skin hydration process and control of keratinization antibacterial and anti-inflammatory properties soothing of signs of irritation and inflammation edema reduction

ANTI-BACTERIAL HERBAL CLEANSING GEL

Perfectly cleanses skin, removes excess sebum, reduces the number of blackheads, contstricts enlarged skin pores and ensures proper hydration. Soothes and calms skin. Contains a complex of 9 plant extracts from chamornile, burdock, sage, lemon, ivy, common soapwort, calendula, linden and cornflower.

CD0115 200 ml

ANTI-BACTERIAL HERBAL TONER

Restores neutral skin pH and prepares it for further treatment. Has astringent and antibacterial properties. Stabilizes the lipid layer of the skin, normalizes water content and lipids. Leaves skin clean and fresh. Contains a complex of 9 plant extracts of chamomile, burdock, sage, lemon, ivy, common soapwort, calendula, linden and cornflower.

CD0215 200 ml

PORELESS PURIFYING BHA-PHA LOTION

Dedicated for face, neck and neckline skin, reduces unfavorable bacterial flora that causes acne, constricts pores, blackheads and symptoms of inflammation. Regulates the secretion of sebum, exfoliates dead skin cells by counteracting its excessive accumulation and sebaceous gland blocking. At the same time it moisturizes and stimulates its cell renewal. It contains salicylic acid (BHA) 1%, gluconolactone acid (PHA) 1.5%, sebo-regulating Trikenol", soothing Biocalmin and extracts of common soapwort, chamomile, calendula, linden and cornflower. Use before skin care cream application.

research session, 2012r

POLY-DERM SEBUM BALANCE DAY CREAM SPF20 UVA/UVB

Preparation designed to regulate and reduce sebum production by inhibiting the activity of the enzyme α -reductase, which is stimulating the activity of sebaceous glands. Additionally the formula clears sebaceous glands, tightens pores and removes blackheads. Moisturizes and improves skin condition – its elasticity and tone. Has antibacterial and anti-inflammatory properties. Contains salicylic and lactic acid esters, Purevrin, Trikenol", complex of 5 plant extracts. High protection cream SPF20. Can be used under makeup. CD1375 50 ml

GLUCO-SALIC ACID NIGHT CREAM

Preparation designed for purifying and exfoliating, clearing pores and reducing swelling. Keratolytic, antibacterial properties, regulates sebum secretion. Cleanses pores, reduces their size and removes blackheads. Strongly hydrates the skin, stimulates cell renewal and improves the condition and color of the skin. Helps to reduce swelling, stimulates blood and lymph circulation. Active ingredients: Salicylic Acid 0.5%, gluconolactone 4.5%, esters of salicylic and lactic acid, Purevrin, Ramiseb, a complex of plant extracts.

IDEAL PURE ACTIVE FORMULA

PUREVRIN with oleanolic acid and an extract from an African tree Enanta chlorantha - reduces sebum secretion by 49%, tightens pores by 36% and reduces skin shine by 55% (Clinical Research).

TRIKENOL** complex of extracts from Manuka tree, willow and burdock enriched with salicylic acid, reduces sebum production, cleanses pores, controls the bacterial flora acne causes. Soothes irritation.

RAMISEB complex of zinc salt L-PCA and extracts from hedge mustard and burdock, regulates sebum with antiseborrheic and antibacterial properties. Reduces swelling, improves skin tone and stimulates blood and lymph circulation.

SALICYLIC ACID Beta hydroxy acid (BHA)- has antibacterial and anti-inflammatory properties, unclogs pores. Exfoliates, removes dead skin cells of the epidermis. Regulates skin cell renewal. Does not cause skin dryness.

GLUKONOLACTONE non-irritating PHA gluconolactone acid, a natural antioxidant, highly moisturizing with anti radical properties. Stimulates cell regeneration and strengthens skin resistance to aggressive external factors.

LACTIC AND SALICYLIC ACID ESTERS keratylic and moisturizing effects of lactic and salicilic esters remove blackheads and soothe redness, shallow facial furrows and wrinkles.

BIOCALMIN biopolymer component soothing irritation and redness, moisturizing, rebuilding the hydrolipid film, strengthens protection against aggressive external factors.

PLANT EXTRACTS regulate and moisturize, have antibacterial properties:
CHAMOMILE, BURDOCK,
SAGE, LIME, IVY,
COMMON SOAPWORT, MARIGOLD, LINDEN,
CORNFLOWER, HORSETAIL

LA AQUA

POWER OF HYDRATION AND REJUVENATION

Line of products ensuring perfect hydration and rejuvenation, soothing and restoring fresh tone in skin suffering from dryness, poor elasticity and wrinkling caused by dehydration.

The program of advanced moisturizing care, ensuring regeneration and smoothing, incorporates the synergies of modern technology to ensure the renewal of elastic skin fibers, resulting in increased firmness and elasticity. Rich in active ingredients aimed at providing immediate hydration, boosts long-term water reserves in skin by stimulating new channels of aquaporin hydration. The active base includes ingredients that support the rebuilding of the hydrolipidic film that protects against water loss giving a smooth and soft skin, including the building components of NMF, regenerating, improving proper exfoliation and soothing.

LA AQUA EFFECT

intense hydration and skin smoothing wrinkle reduction and facial furrows shallowing, lipid structures regeneration, increased hydrolipidic film flexibility improved skin elasticity normalization of epidermal keratinization process

MOISTURISING SMOOTHING CLEANSING MILK

Perfectly cleanses, moisturizes and softens skin preparing it for absorbing active ingredients. Smoothes skin, relieves symptoms of irritation, restores proper pH level. Contains innovative polysaccharides Hydro-Factor formula, allantoin, cucumber extract, gentle emollients.

CD0118 200 ml

MOISTURISING SMOOTHING TONER

Actively moisturizes, softens and optimizes skin pH level. Reduces irritation and redness. Leaves skin smooth, soft and relaxed. Contains innovative polysaccharides, Hydro-Factor formula, allantoin, cucumber extract. CD0218

EYE & LIP MOISTURISING RENEWAL CREAM

Non-perfumed smoothing moisturizing cream which uses the technology of elastic fibers regeneration and NMF ingredients, shallowing of facial furrows and wrinkles, with skin firming properties. Contains substances that stimulate hydration and collagen: beta-glucan, Hydra-filaggrin, Lactin, lactic acid esters, Hydro-Factor, urea. Licorice extract, rose oil, hydrolyzed silk, vitamin E, allantoin and emollients complement regeneration and rejuvenation.

CD0625 30 ml

Natural moisturizing factor NMF which is responsible for proper hydration and protection of skin against dehydration contains urea at 7-8% (for normal skin). For dry skin this amount is reduced by 50% and up to 15% for skin dermatosis (relative to 100% for normal skin). NMF is a natural, water-soluble substance produced in the epidermis. It consists mainly of amino acids and their derivatives.

Amino acids forming NMF are derived from proteins present in the epidermis known as filaggrin, which is a product of the Profilaggrin degradation process and is produced by filaggrin gene expression in the DNA chain. The decrease of NMF level is causing the loss of skin moisture, causing tightness and roughness. Common causes are flaking and chapping of the skin.

LAAQUA 16% MOISTURISING RENEWAL SERUM

Contains highly concentrated ingredients: beta-glucan, Hydra-filaggrin, Hydro-Factor, lactic acid esters and Lactin which actively moisturize immediately and in the long term, reduce wrinkles, stimulate cell renewal and production of elastic fibers. Hydrolyzed silk and elastin increase skin elasticity. Licorice extract, cucumber, vitamin A and allantoin rejuvenate, soothe and even skin tone.

MOISTURISING RENEWAL DAY CREAM SPF20 UVA/UVB

Contains a rich moisturizing formula, providing NMF and ensuring elastic fibers renewal. Reduces transepidermal water and urea loss. Tightens the hydrolipid film. Active ingredients: beta-glucan, hydrolyzed silk, Hydra-filaggrin, lactic acid esters, Hydro-Factor and urea stimulate hydration and elasticity of the skin, and licorice extract, allantoin, rose oil and Shea butter stimulate rejuvenation and regeneration. Cream has a high protection SPF20. Can be used under makeup. CD1390 50 ml

LACTIC ACID RENEWAL NIGHT FACE CREAM

moisturizing, softening and smoothing wrinkle cream with 3% lactic acid and lactic acid esters, which gently exfoliate, regulate keratinization, tighten the protective barrier hydration and stimulate the regeneration of skin elasticity. Hydro-Factor, hydrolyzed elastin and silk give immediate effects of moisture, smoothness and softness, and allantoin, rose oil and Shea butter regenerate and even out skin tone.

CD1391 50 ml

LA AQUA ACTIVE FORMULA

LACTIC ACID highly moisturizing regulates exfoliation processes, removes dead skin cell layers. Tightens the hydro-lipid barrier.

Stimulates the elastic fibers regeneration, improves elasticity

and firmness. Cleanses skin, evens out skin tone.

BETA-GLUCAN biomimetic polysaccharide - promoter of hydration and collagen synthesis with the firming and wrinkles shallowing effect. Strengthens the antioxidant protective barrier, reducing roughness and redness.

HYDRA-FILAGGRIN stimulates water and urea aquaporin transport channels and production of filaggrin which is necessary for the normal structure of the skin, providing optimum hydration and sebum level.

LACTIC ACID ESTERS active emollient, slightly oiling, with anti-irritating and moisturizing properties, regulating the process of keratinization.

LACTIN highly moisturizing, rich in NMF recreating substances, i.e. sodium salt of lactic acid and glycine PCA, urea and niacinamide.

UREA NMF ingredient, moisturizing and softening, increasing the water holding capacity of the skin.

HYDRO-FACTOR innovative formula of immediately and long-term moisturizing polysaccharides. Obtained from the seeds of Caesalpinia spinosa growing in the dry climate of the Andes.

HYDROLYSED SILK, ELASTIN AND EMOLLIENTS with smoothing, lifting, toning properties.

LICORICE EXTRACT stimulates the synthesis of hyaluronic acid.

SHEA BUTTER AND ROSE OIL regenerates the lipid barrier.

ALLANTOIN AND VITAMIN E with soothing and rejuvenating properties.

ROYAL GLOW CLINIC

BRIGHTENING AND VITALIZATION

WITH IMMEDIATE BEAUTIFUL SKIN EFFECT

Complex care for all skin types requiring regeneration, revitalisation, restoring elastic oval contour and a younger appearance. For tired, sallow, matt skin an skin with signs of exhaustion. Suitable even before an important social event.

Also for tired skin due to sleep disorders and fast pace of life.

Uniquely rich, active vitamins and brightening ingredients base, lifting with microspheric wrinkle filler allows achieving the glamour effect - instant rejuvenation and smoothing of the skin.

ROYAL GLOW CLINIC EFFECT

luminous and rejuvenated skin smoothed wrinkles and improved skin elasticity strengthened contour with immediate "soft-focus" effect excellent and immediate long-lasting hydration symptoms of irritation and redness reduction strengthened anti-aging antiradical protection

VITAMIN REVITALISING CLEANSING MILK

Effectively removes skin impurities; formula is very rich in vitamin ingredients that lighten up and smoothe skin; restores skin radiance, hydration and silky softness. Contains vitalizing VITAMI complex, immediately and permanently moisturizing Hydro-Factor, melon extracts, marigold, chamomile and allantoin.

VITAMIN REVITALISING TONER

Revitalizes, tones and cleanses; contains active vitamizing formula, brightens and smoothes. Leaves skin glowing, calmed with brightened tone. Contains vitality VITAMI complex, hydrating Hydro-Factor and a blood vessel strengthening melon extract - a valuable source of vitamins A, C and K, sugars, micro- and macronutrients and regenerating marigold extract.

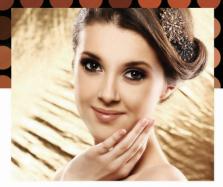

CD0221 200 ml

ENRICHED VITAMIN SERUM FACE & EYE

Rich in soothing and anti-inflammatory ingredients serum, smoothes skin texture, reduces mesh of wrinkles and skin irregularities, ensures excellent moisturizing; gives skin luminous radiance, visibly rejuvenates. Reduces skin flabbiness, strengthens anti-radical defense mechanisms. Contains Prolivin, which eliminates signs of fatigue, vitalising vitamin VITAMI complex, inti-irritaiting Redlestine and Ti-Rutin, moisturizing and regenerating Hydro-Factor, regenerating pearl and melon extract and vitamin A.

CD1422 30 ml

ALWAYS BEAUTIFUL EVERYDAY
AND BEFORE THE GREAT SOCIAL EVENTS

VITAMI complex Vitamin E Vitamin C Vitamin B3 Vitamin B5 Vitamin B6 B2 E B5 C B6

Vitamin E rejuvenates and has anti-free radicals properties

Vitamin C has antioxidant properties Vitamin B3 moisturizes, smoothes

Vitamin B5 soothes, has anti-inflammatory properties

Vitamin B6 regenerates, has anti-wrinkles properties

CONCENTRATED ANTI-AGEING CARE WITH MICROSFERIC FILLER
AND SOFT FOCUS EFFECT

INSTANT BEAUTY DAY CREAM SPF20 UVA/UVB

Contains microspheric wrinkle filler and vitamin rich VITAMI complex. Provides an immediate smoothing and deeply moisturizing effect, eliminates skin furrows. Improves elasticity and oval contour. Reduces signs of fatigue, brightens and tones skin color. Relieves symptoms of inflammation. Leaves skin soft, velvety, and bright. The formula is enriched with actively moisturizing, lifting and brightening ingredients - hyaluronic acid, Lactin, Hydro-Factor, Easyfirm, Prolivin, marigold and emblica extract. Can be used under makeup. CD1420 50 ml

REVITALISING FIRM NIGHT CREAM

Improves skin flexibility and face contour, reduces signs of fatigue with the effect of smoothing the skin, reduces mesh of wrinkles, moisturizes and brightens. Strengthens anti-radical defense mechanisms. The active formula enriched with Prolivin, reducing skin fatigue, and moisturizing ingredents: Lactin, Hydro-Factor and the macromolecular hyaluronic acid and hydrolyzed silk protein, vitamin A, melon extracts, chamomile, marigold and Emblica.

ROYAL GLOW CLINIC ACTIVE FORMULA

VITAMI COMPLEX rich in E, C, B_8 , B_6 , vitamins with vitalizing and antioxidant effect, has strengthening, moisturizing, smoothing and skin firming properties. Soothes, reduces symptoms of irritation.

EASYFIRM uses the synergy of a natural polymer with reversible water absorbing properties containing resin from Senegal Acacia, ensures immediate lifting effect and reduces wrinkles.

RONA MICRO SPHERE smoothing microspherical filler with immediate effect of rejuvenation, soothes facial features and reduces small wrinkles.

PROLIVIN silk tree extract eliminates signs of skin fatigue, unhealthy skin tone, limpness, swelling under the eyes, restores balanced production of melatonin, strengthens network of micro-capillaries.

LACTIN highly moisturizing, rich in NMF recreating substances - sodium, salt of lactic acid, PCA, glycine and urea.

HYALURONIC ACID Macromolecular 1MDa with exceptional water binding capacity in the epidermis, highly moisturizes and smoothes skin.

REDLESTINE antioxidant flavonoid that reduces redness, improves microcirculation; with photo-protection and anti-aging properties.

TI-RUTIN anti-aging antioxidant flavonoid, strengthens capillaries, improves their flexibility and permeability. Reduces symptoms of irritation, soothes and reduces skin tension.

HYDRO-FACTOR formula of polysaccharides providing immediate and long-term moisturizing, obtained from seeds of Andean Caesalpinia.

PEARLS EXTRACT rich in amino acids and minerals, including calcium and conchiolin - organic substance occurring in pearls - regenerates, hydrates and detoxifies. Stimulates the metabolism and regeneration of damaged cells.

ACTIVE FORMULA ENRICHED WITH:
VITAMIN A, SILK PROTEIN, EMBLICA,
EXTRACTS OF: MELON, CAMOMILE, MARIGOLD

LIFT PEPTANGO R

INNOVATIVE LIFTING WITH THE NEXT GENERATION OF PEPTIDES

Modern line of products based on advanced peptide formulas: anti-aging peptide with the efficiency of retinoic acid, cycloand lipopeptides with anti-ageing properties and modeling skin architecture. For all skin types, including sagging, poorly elasticized, sensitive, mature skin with wrinkles.

Anti-aging medicine specialists consider peptides as one of the most effective methods of repairing damaged skin function, preventing anti-aging. Modern anti-aging formula stimulates the synthesis of collagen, improves elasticity and skin structure density, prevents the aging and sagging of skin.

LIFT PEPTANGO R EFFECTS

renewed, lifted face contour strengthened skin cohesion and density increased skin flexibility and elasticity smoothed and visibly reduced wrinkles even skin tone

LIFT PEPTIDE CLEANSING MILK

Effectively removes makeup and skin impurities, concurrently improving skin elasticity and firmness. Contains an advanced formula of anti-aging cyclic lipopeptide and extracts of rice, marigold ginkgo biloba. Leaves skin cleansed and smooth.

CD0123 200 ml

LIFT PEPTIDE TONER

For toning and skin cleansing; contains an advanced formula of innovative peptides - peptide with a rejuvenating properties as in retinoic acid, and cyclic peptide that improves skin elasticity, reduces wrinkles, enhances skin contour. Active formula supplemented with extracts of rice, marigold and ginkgo biloba.

2014 Mercurius Gedanensis

Gold Medal

REVOLUTION CORRECTION OF EYE CONTOUR WITHOUT SCALPEL - BEAUTIFEYE™ STATE-OF-THE-ART comprehensive formula rejuvenating skin around the eyes area based on a well documented research: liftss the upper eyelid fold, reduces swelling, crow's feet, lightens dark circles under the eyes.

LIFT PEPTIDE EYE CONTOUR CREAM

Non-invasive correction of the upper eyelid contour without the use of a scalpel, inspired by aesthetic medicine. Rejuvenating cream, strengthening skin architecture around the eyes, reducing bruises and swelling, shallowing wrinkles. Contains an innovative component BeautifeyeTM, that --by strengthening skin structure and increasing fiber shrinkage-- lifts the upper eyelid fold preventing it from falling and reduces crow's feet. Brightens dark circles under the eyes, reduces the feeling of fatigue by increasing density of capillaries network and reduce pigments accumulation.

CD0223 200 ml

Rejuvenating and lifting peptides effect GRAVI-PEPT GRAVI-PEPT - increase in the amount of elastin CYCLO-PEPT - reduction in collagen damaging enzymes CYCLO-PEPT - reduction in the lastin damaging enzymes CYCLO-PEPT - reduction in the lastin damaging enzymes CYCLO-PEPT - reduction in the wrinkles' surface area RETINO-PEPT - reduction in the wrinkles' surface area RETINO-PEPT - reduction in the wrinkles' length LIFT SERUM FACE & NECK Serum rich in ingredients that promote skin firming and strengthening of face and neck architecture.

Serum rich in ingredients that promote skin firming and strengthening of face and neck architecture. Has anti-wrinkle properties and stimulates generation of new elastic fibers. An advanced formula of active peptides, including: peptide with properties of retinoic acid, lipopeptides and cyclopeptides, rejuvenating R-Bio-Repair, smoothing emollients and plant extracts of rice, marigold and ginkgo. Serum also contains emollient, revitalizing ingredients: Shea butter, beeswax, avocado oil and anti-aging A and E vitamins.

CD1442 30 ml

LIFT PEPTIDE DAY CREAM SPF20 UVA/UVB

Firms, strengthens skin architecture and face contour, contains an advanced anti-aging peptides formula that increases skin flexibility and elasticity: a peptide with properties of retinoic acid, a cyclic lipopeptide stimulating cell renewal, and anti-sagging skin peptide. The formula is enriched with active pro collagen R-Bio-Repair ingredient rich in amino acids of Acai berry and rice, marigold and ginkgo biloba extract. Rosehip oil and Shea butter regenerate skin by supplying nutrients. Cream of high protection SPF20. Can be used under makeup.

CD1440 50 ml

LIFT PEPTIDE NIGHT CREAM

Perfectly regenerating, smoothing and firming cream. Strengthens skin architecture and stimulates creation of new elastic fibers. Prevents skin sagging due to age and effects of gravity. An advanced formula consisting of active peptides, including the peptide having the efficiency of retinoic acid, lipoprotein and cyclopeptides, smoothing emollients and plant extracts. Contains lifting anti-aging peptides: Retino-Pept, Cyclo-Pept 5, Gravi-Pept. The active formula is additionally enriched with rice, marigold and ginkgo biloba extracts. Shea butter and avocado oil - smooth and regenerate the skin.

CD1441 50 ml

LIFT PEPTANGO R ACTIVE FORMULA

-30%** -35%** -33%*

LIFT PEPTANGO R

RETINO-PEPT next-generation peptide of clinically proven rejuvenating efficacy of retinoic acid without side effects. Stimulates the synthesis of collagen and improves the cohesion and structure of the skin, enhances skin elasticity. Reduces wrinkles, brightens and enhances skin tone.

CYCLO-PEPT 5 innovative cyclic lipopeptide 5, owing to a unique ability to combine with receptors stimulates skin cell regeneration, reduces wrinkles, increases firmness and elasticity.

GRAVI-PEPT anti-sagging lip peptide counteracting to the loss of skin elasticity caused by aging and the effects of gravity on the skin. Restores proper skin tension and elasticity, repairs elastic fibers architecture.

R-BIO-REPAIR unique formula of Acai berries and wolf scarlet active extracts with lifting and rejuvenating ingredients. Increases skin elasticity, smoothes wrinkles and improves skin contour.

BEAUTIFEYE™ latest modern formula, rejuvenating the area around the eyes with proven research results: lifts the upper eyelid fold, reduces the crow's feet at the corners of the eyes and brightens dark circles under the eyes and decreases swelling. Improves the contour of the eye, clearly reduces the feeling of fatigue.

RICE EXTRACT with protecting, soothing inflammation, anti-aging and anti-free radical properties.

MARIGOLD EXTRACT with antibacterial and anti-inflammatory properties, moisturizes and smoothes the skin.

JAPANESE GINKGO BILOBA EXTRACT stimulates microcirculation and reduces swelling.

ACTIVE FORMULA ENRICHED WITH:

rejuvenating , anti-free radical and regenerating ingredients: AVOCADO OIL , SHEA BUTTER, OIL ROSEHIP, BEESWAX, VITAMIN E, VITAMIN A

CAVIAR CARE 40+

EXCLUSIVE AGE & MIMIC WRINKLE CORRECTION

Specialized intensive rejuvenation program with a botulinum toxin effect to restore collagen levels, skin density and with anti-aging properties for all skin types with signs of aging, mimic and age wrinkles, for flabby, elasticity losing skin.

Carefully developed formula preparations provide active substances which skin has lost over time. Eliminates and inhibits degenerative changes in the amount and structure of collagen fibers - collagen III, which forms the skin and collagen I network, which it supplements. Active base - extra Caviar pro collagen complex 3D and Botosine (ArgirelineTM) neuropeptide and anti-aging antioxidant ingredients to revitalize and provide an excellent alternative to injection treatments.

CAVIAR CARE EFFECT

reduction of mimic and age wrinkles increasing of density and improvement in skin contour stimulation of collagen I & III synthesis improvement of skin elasticity and flexibility increase of the antioxidant protection

Rich, cleansing formula with exclusive extracts of caviar, pearls, white lily and rice with regenerative, wrinkle smoothing, anti-free radical and soothing properties. Leaves skin soft, smooth and nourished.

CD0119 200 ml

ENRICHED CAVIAR TONER

Prepares skin for toning and cleanses with an active base with regenerating, wrinkle smoothing, anti-free radical and soothing properties. Leaves skin smooth, soft and delicate. Contains regenerating and moisturizing caviar extract, rejuvenating pearl extract and soothing rice &white lily extract.

CD0219 200 ml

BOTOSINE 20% INTENSE PEPTO-SERUM FACE & EYE

Intensive Serum reducing mimic and age wrinkles and those around the eyes and mouth - an excellent alternative to surgical treatments of botulinum toxin injections. A high concentration of Botosine (Argireline") neuropeptide, enriched with Oligomatryl" pro collagen formula and caviar extract produce a visible wrinkle shallowing effect. Also contains soothing and regenerative provitamin A, vitamin E and allantoin.

CAVIAR ANTI-WRINKLE DAY CREAM SPF20 UVA/UVB

A light texture and elegant vanilla fragrance active cream, with innovative pro-collagen Oligomatryl" formula, caviar extract and organic silica. Provides high protection SPF2O. Smoothes wrinkles, stimulates the synthesis of collagen, accelerates cell renewal and improves skin density. Skin becomes more elastic, velvety smooth and moisturized with a reduced depth of furrows, age and mimic wrinkles. CD1318 50 ml

CAVIAR ANTI-WRINKLE NIGHT CREAM

Regenerating and soothing anti-wrinkle cream with a light texture and elegant fragrance of vanilla, with innovative Oligomatryl" pro-collagen formula, caviar extract and Argireline". Regenerates and nourishes, stimulates the synthesis of collagen, accelerates cell renewal, improves skin density. Shea butter strengthens nourishing and emollient properties of the preparation and also relieves symptoms of irritation. The cream leaves skin more elasticized, better hydrated and smooth. CD1319 50 ml

CAVIAR CARE 40+ ACTIVE FORMULA

CAVIAR EXTRACT rich in unsaturated fatty acids, peptides, proteins, amino acids, oligo elements, vitamins A, D, E, and B; moisturizing, regenerating and nourishing. Reinforces firmness, improves skin condition.

OLIGOMATRYL* COMPLEX innovative 3D formula of polysaccharides stimulates fibroblasts and collagen I & III renewal, strengthens skin density, reduces furrows and age wrinkles.

BOTOSINE (Argireline") next-generation neuropeptide, reducing the depth of wrinkles by blocking musculoskeletal conduction. Non-surgery alternative to botox injection.

PEARLS EXTRACT known in traditional Chinese medicine as elixir of youth. Moisturizes, stimulates regeneration, detoxifies.

RICE EXTRACT anti-aging, antioxidant and soothing component.

WHITE LILY BULBS EXTRACT smoothing, soothing, moisturizing and softening properties.

SHEA BUTTER from Parka's Shea nuts with a protective, regenerating, irritation reducing properties. With the content of vitamins E and F, also acts a natural sunscreen.

PAPAIN contains natural enzymes loosening connection between corneocytes which exfoliate dead skin cells and smooth the skin.

VITAMIN E called the vitamin of youth, has anti-free radical and anti-aging properties.

ALLANTOIN active stimulator of skin renewal, reduces irritation, smoothes and improves skin hydration and elasticity.

ALGISIUM - organic silica, with lifting, moisturizing and anti-wrinkle properties.

NUTRI MAXX 40+

ABSOLUTE REJUVENATION CODE, REGENERATION AND MOISTURE

Comprehensive depth repair program- regeneration and hydration for all skin types with signs of aging, damaged skin, with wrinkles, sagging, mature, tired without energy, unhealthy skin tone.

The line is based on modern biotechnological and plant ingredients inspired by research in genetic skin aging focused on increasing energy cells ATP and restoring proper regeneration mechanisms. Low and high molecular weight hyaluronic acid, blue retinol of vegetable origin, modern peptides slowing cell aging and "from the inside" wrinkle fillers and numerous anti-aging formulas produce spectacular results of skin rejuvenation.

NUTRI MAXX EFFECT

nutrition and skin regeneration hydration and texture improvement furrows and wrinkles smoothing firmness and elasticity strengthening skin tone improvement

NUTRITIVE CLEANSING MILK

Thoroughly removes makeup and skin impurities, at the same time regenerating and supplying skin with smoothing, moisturizing and energizing ingredients. Leaves skin moisturized, nourished, with improved comfort, tone and vitality. Contains an extract of parsley, Yellow-Blue plant extracts, energizing ATP STIM and avocado oil and plant extracts.

CD0111 200 ml

NUTRITIVE HYALURONAN TONER

Perfectly tones skin, at the same regenerates and supplies moisturizing ingredients: high molecular weight hyaluronic acid, energizing ATP-Stim and renewing anti-free radical extract of parsley, acacia, cornflower and aloe. Leaves skin soft, better moisturized and smooth, with vital tone.

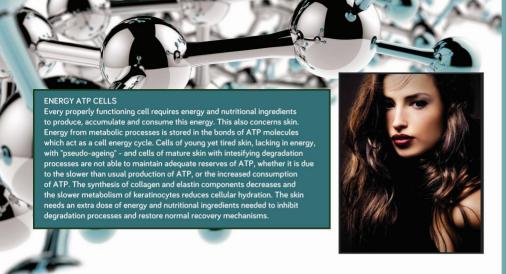

CD0213 200 ml

HYALUGENE 12,5% SERUM FACE & EYE

The advanced formula of 12.5% highly concentrated moisturizing ingredients, with lifting and skin aging inhibiting properties. Low and high molecular weight hyaluronic acid enhances in-depth hydration and elasticity, and smoothes wrinkles. Modern peptides: HYA-STIM - stimulating the production of hyaluronic acid and shallowing wrinkles "from the inside" and Skin Matrix delaying aging and strengthening firmness, give rejuvenated and improved skin contour effects. Pseudohormone DHEA improves elasticity, hydration and skin micro texture. The skin is visibly hydrated and softened, rejuvenated with improved elasticity and facial expressive contour.

CD1337 30 ml

HYALURONAN DAY CREAM SPF25 UVA/UVB

With high SPF25 protection, moisturizing, regenerating and energizing. Inhibits aging processes and smoothes wrinkles. Activates the repair functions, restores firmness, smoothness and elastic skin contour. Intensive, active formula contains deeply penetrating and moisturizing, low molecular weight hyaluronic acid 50kDa, rejuvenating, biomimetic Peptide Complex GLI peptide, energizing ATP-stim, complex of plant extracts Yellow-Blue, the youth vitamins E and A, allantoin and regenerating avocado oil. Cream can be used under makeup.

CD1335 50 ml

BLUE RETINOL NIGHT CREAM

With powerful rejuvenating, nourishing and energizing properties, rich in active ingredients: anti-wrinkle, plant blue retinol - stimulating keratinization and skin renewal, energizing stimulator of ATP, complex extracts of Yellow-Blue that promote fiber elasticity and regenerative avocado oil, Shea butter and coffee. Formula enhanced with golden root extract, youth vitamins E and A and allantoin. The skin is smooth with reduced wrinkles, with refirmed skin contour.

CD1336 50 ml

NUTRI MAXX 40+ ACTIVE FORMULA

HYALURONIC ACID low molecular 50kDa deeply penetrating skin, increases intracellular hydration, strengthens collagen and elastin fibers, shallows wrinkles.

HYALURONIC ACID high molecular 1MDa with a unique ability to bind water in epidermis, highly moisturizes and smoothes skin and protects it against loss of elasticity. Creates occlusive skin protection.

HYA-STIM 3-PEPTIDE stimulator of the hyaluronic acid synthesis - next-generation tripeptide refirms skin and produces "from the inside" wrinkle smoothing effect, shapes face oval.

SKIN MATRIX component of plant origin slows down cell aging, increases elasticity and firmness of skin, improves face contour.

BLUE RETINOL plant retinol, an equivalent of endemic Oregon algae, rich in proteins, lipids, saccharides and vitamins, stimulates keratinization and renewal processes, smoothes and improves skin tone

COMPLEX GLI next-generation biomimetic peptide of 3 amino acids sequence controls keratinization, strengthens skin density, elasticity and hydration.

DHEA-like a biotechnological equivalent of the youth hormone inhibits aging, improves skin density and elasticity.

ATP-STIM modern component stimulating and increasing cellular energy, protects skin and reduces signs of fatigue, improves vitality.

GOLDEN ROOT EXTRACT with anti-stress, anti-free radical and anti-aging properties, stimulates production of beta-endorphins.

YELLOW-BLUE COMPLEX extracts of acacia, cornflower and aloe, strengthens elasticity, moisturizes, soothes irritation.

ACTIVE FORMULA ENRICHED WITH:
ANTI-FREE RADICAL PARSLEY EXTRACT WITH VITAMIN C AND
FLAVONOIDS,
AVOCADO OIL, SHEA AND COFFEE BUTTER,
VITAMINS E AND A, ALLANTOIN

ESTRINI 50+ Fundamental Youth

FUNDAMENTAL YOUTH OF MATURE WOMEN

Fundamentally rejuvenating and anti-wrinkle product line for mature women 50+ in menopausal, postmenopausal period protects skin against aging due to estrogen shortage and hormonal disorders. Inspired by the latest results of the pharmaceutical and clinical laboratory tests involving the low molecular peptides, unique phytoestrogens and customized anti-aging ingredients.

Unique active base is focused on repairing the texture and structure of the skin, improving fiber collagen density, reducing deep wrinkles, strengthening the dermo-epidermal junction (the so-called DEJ) and restoring moisture, elasticity and radiant skin tone.

ESTRINI FEFECT

strengthening and restructure of collagen fibers
lifting effect of the dermo-epidermal junction
"glamour" effect, skin smoothing
reduction of depth and volume of wrinkles
lightening of skin tone and microcirculation improvement
contour modeling and vitality improvement
sense of perfect moisture

FUNDAMENTAL YOUTH CLEANSING MILK

With sandalwood oil, cleans impurities, effectively removes make-up; at the same time rejuvenates thanks to rich formula containing: phytoestrogen complex with 8 plants and advanced component Menoskin reducing the signs of aging. Leaves skin clean, softened and calmed.

CD0116 200 ml

FUNDAMENTAL YOUTH TONER

Toning and soothing, with sandalwood oil. Restores proper skin pH and supplies anti-aging ingredients to skin with signs of hormonal aging: Phytrodial - phytoestrogens complex with 8 plants and advanced rejuvenating Menoskin. Leaves skin with a sense of comfort, ideal moisture and freshness.

FUNDAMENTAL YOUTH REPAIR CONCENTRATE 26% FACE & EYE

Night and day care sandalwood oil concentrate, in day care – for use before day cream application, rejuvenates skin texture, reduces the symptoms of hormonal aging, with rich 26% formula of the modern phytoestrogens, peptides and antioxidants. Phytrodial complex replenishes estrogen shortage, strengthens skin elasticity, circulation and tone. Low molecular peptides and Synpept Matrixin6 and original Menoskin are a powerful dose of rejuvenation: smoothe wrinkles, hydrate, refirm and improve skin contour. Formula is enhanced with powerful anti-aging antioxidants - Chromoderm and Skinguard.

FUNDAMENTAL YOUTH DAY CREAM SPF20 UVA/UVB

With luxurious Album sandalwood oil and high SPF20 protection. Advanced formula contains phytoestrogens, peptides and antioxidants. Phytrodial complex replenishes estrogen shortage and reduces the atrophy of the skin, improves skin elasticity, circulation and tone. Strong anti-wrinkle peptides Matrixin6 and Synpept and the original Menoskin provide nutrients, shallow wrinkles, increase skin hydration and elasticity, strengthen cohesion and oval. Powerful antioxidants - Chromoderm and Skinguard enhance anti- aging properties. The cream can be used under makeup.

CD1380 50 ml

FUNDAMENTAL YOUTH NIGHT CREAM 50+ REGENERATING ANTI-WRINKLE

Regenerating and anti-wrinkle, with low molecular peptides and calcium formula with release patented system intensively smoothing out wrinkles, moisturising and improving skin elasticity. Rich in peptides Synpept and Matrixin6, shallows wrinkles and contains unique antioxidants Chromoderm and Skinguard. The cream contains calcium in a special form guaranteeing a stable, regular release into the skin, essential to perfect moisture and DEJ barrier improvement, strengthening elasticity and improving mature skin facial contour. The calcium formula is transported to epidermis more effectively and gradually released in response to the needs of mature skin. CD1398 50 ml

ADVANCED BUST & BODY CREAM

With smoothing and regenerating properties. Strengthens skin structure, hydration, firmness and elasticity. Stimulates microcirculation, restores brightness and skin tone. Active formula contains sandalwood oil, Phytrodial -rich phytoestrogens complex, rejuvenating Synpept and Menoskin and sorghum and licorice extracts that improve skin elasticity. The formula is enriched with regenerating avocado oil and Shea butter and provitamin A.

CD1777 200 ml

ESTRINI 50+ Fundamental Youth ACTIVE FORMULA

PHYTRODIAL is a powerful formula of selected phytoestrogens from the original 8 plants with clinically proven effects of estrogen shortage replenishment and reducing atrophic skin lesions caused by hormonal imbalance. Stimulates the synthesis of collagen IV and VII, strengthens the dermal-epidermal junction DEJ, increases microcirculation. Improves elasticity, firmness, blood circulation and skin tone.

MATRIXIN6 strong anti-aging, low molecular weight peptide, stimulates the synthesis of six main components of the dermal matrix and the dermo-epidermal junction, including collagen I, III, IV and hyaluronic acid. Improves skin hydration, density, firmness and elasticity, tone and face oval. The effectiveness is confirmed by the in vivo panel study on a group of 25 women aged 42 -70 years.

SYNPEPT low molecular weight peptide complex with smoothing and anti-wrinkle properties, increasing skin elasticity. Strengthens the dermal-epidermal junction (DEJ) that maintains the cohesion of the dermis and epidermis, thus restoring firmness and elasticity. The main component of the DEJ are collagen fibers of type IV, VII and XVII and laminin V.

MENOSKIN multifunctional active substance from the Chinese fungus Poria Cocos used in traditional Chinese medicine; stimulates the production of hyaluronic acid, collagen IV and proteins affecting cohesion, thickness and brightness of the skin.

SKINGUARD polysaccharides from red algae Porphyridium with powerful antioxidant. Reduces the tendency to irritation and redness. Shallows wrinkles, produces the "glamour" effect visible after 30 minutes after application.

CHROMODERM custom anti-aging ingredient fighting oxidative stress, inflammation, discolorations. Improves the color and brightness of the skin, gives a fresh and younger look.

ALBUM SANDALWOOD OIL one of the most valuable varieties of Indian sandalwood album, valued in ancient Egypt, an integral part of Ayurvedic medicine. Has calming, soothing and antibacterial, nut also antidepressant and harmony-restoring properties.

C'MODULAR AGE

DERMAL TREATMENT AGAINST PHOTOAGING AND DISCOLOURATION

Innovative rejuvenating line with modern forms of vitamin C (MAP, SAP), whitening ingredients and immediate wrinkle filler GABA Cx: combats anti-aging and photo aging of the skin, smoothes wrinkles, brightens skin spots and discolorations, including sun spots and scars, eliminating scars' tone and strengthening capillaries.

Photo-aging is the process of aging and skin damage as a result of the cumulative action of solar radiation (including artificial sources: sunbeds, mercury vapor lamps). The main cause is an excess of free radicals that cause excessive keratinization, dryness and roughness, gradual degradation of collagen and elastin, abnormal pigmentation and pigmented lesions, fragility of blood vessels and redness and irritation.

C'MODULAR AGE EFFECT

deep wrinkles smoothing
collagen fibers strengthening
discoloration and spots reduction including sun and acne spots
scars tone eliminating
strengthening walls of capillaries
antioxidant and antiradical protection increasing

REVIVE BRIGHTENING CLEANSING MILK

Thoroughly removes makeup and skin impurities. Active formula rich in vitamin C, rejuvenating and whitening ingredients and plant extracts strengthens hydration, smoothness and elasticity of the skin. Active formula: Vitamin C Ascorbic Acid -SAP and Lumiskin", plant extracts of Punarnava, parsley, pomegranate, cucumber, cocoa, lime, butcher's broom and pineapple, rosehip oil.

CD0120 200 ml

REVIVE BRIGHTENING TONER

Ideally tones up, moisturizes, has antioxidant properties, evens skin tone. A source of valuable rejuvenating, smoothing, brightening ingredients. Contains a stable form of vitamin C. The active formula: Vitamin C -SAP, Prolivin, plant extracts of Punarnava, parsley, pomegranate, cucumber, cocoa, lime, butcher's broom and pineapple. CD0220 200 ml

GABA Cx 35% FILL-IN EXTREME WRINKLE FILLER FACE & EYE

Innovative Cx GABA complex concentrate spectacularly rejuvenates face skin, eyelids and areas under the eyes. Immediately and permanently reduces wrinkles due to its unique formula of botanical neurotransmitters and silicone polymers. The innovative nerve synapses blocking mechanism causes muscle relaxation and clearly visible smoothing of the skin. Silicone polymers optically reduce wrinkles with Soft-focus effect. The preparation stimulates the synthesis of collagen and hyaluronic acid.

CD1342 30 ml

REVIVE C 5% BRIGHTENING EYE CREAM SPF15 UVA/UVB

Rejuvenates, reduces wrinkles around the eyes, improves skin elasticity and stimulates cell renewal. Brightens, reduces discoloration. Increases the antioxidant protection of the skin. Contains vitamin C - SAP and AA 5% and special UVA/UVB filter in capsules for day and night use. Contains active formula enriched with peptide hyaluronic acid stimulator and moisturizing Hydro-Factor, whitening and anti-free radical ingredients such as C'Tyrofix, Lumiskin", plant extracts, rose oil, vitamin E.

CDO606 30 ml

REVIVE C 6% BRIGHTENING DAY CREAM SPF30 UVA/UVB

With a very high SPF30 protection. Intensively rejuvenates and smoothes wrinkles thanks to the formula with Vitamin C - MAP and SAP 6%, GABA Cx, Lumiskin" and complex of anti-free radical, whitening extracts. Reduces signs of aging and photo-aging, stimulates collagen renewal. Brightens pigmentation and acne lesions, skin tone. Increases antioxidant and anti radical protection. Can be used under makeup. Active formula: Vitamin C - MAP and SAP 6%, GABA Cx, Lumiskin", pomegranate extract, cocoa and raspberry, rose oil, Shea butter, allantoin, vitamin E.

CD1343 50 ml

CD1345.30 ml

REVIVE C 8% NIGHT CREAM

Redlestine, Punarnava, rose oil extracts, allantoin, vitamin E.

Reduces signs of aging and photo-aging, stimulates collagen renewal. Smoothes wrinkles, improves elasticity, moisturizes and reduces roughness and irritation. Intensively brightens discolorations, including acne scars, restores radiance and luminosity of the skin. Contains vitamin C-MAP, SAP 8%, rejuvenating complex GABA Cx - reducing wrinkles, whitening, moisturizing and anti-irritant ingredients -Lumiskin $^{\sim}$, Biocalmin, Hydro-Factor, extracts of pomegranate, cocoa and raspberry.

CD1344 50 ml

REVIVE BRIGHTENING HAND & BODY CREAM SPF15 UVA/UVB

With Vitamin C and factor SPF15. Smoothes, regenerates and reduces skin roughness caused by photo-aging and aging. Stimulates cell renewal and collagen synthesis, brightens and reduces the intensity of discoloration. Increases antiradical and antioxidant protection. Contains vitamin C - MAP, SAP, C'Tyrofix, Lumiskin", extracts of pomegranate, cocoa and raspberries, vitamin E, Shea butter, coffee, UVA/UVB.

CD1776 200 ml

C`MODULAR AGE ACTIVE FORMULA

VITAMIN C a powerful antioxidant, a great promoter of collagen synthesis, stimulates skin elasticity and firmness. Rejuvenates, brightens discolorations, strengthens capillaries. Reduces damage and irritation caused by UV radiation. Formula vitamin C in preparations - MAP Magnesium Ascorbyl Phosphate - converts inside the skin into the active form of the pure ascorbic acid, Sodium Ascorbyl Phosphate SAP very high antibacterial activity and AA Ascorbic Acid

GABA COMPLEX Cx immediately rejuvenating and filling wrinkles. Unique botanical formula of neurotransmitters and silicone polymer of GABA acid, extracts of purslane, ginseng and Centella asiatica - blocks nerve signals and skin micro contractions giving the effect of smoothing skin and strengthens the structure and firmness. More than 50% reduction of wrinkles confirmed clinically on a sample of 15 people. Application effects are visible after 1 minute.

HYA-STIM 3-PEPTIDE hyaluronic acid synthesis stimulator - next-generation tripeptide with the effect of firming and smoothing wrinkles from the inside, shapes the face oval.

C'TYROFIX brightens discoloration and pigmentation lesions.

EXTRACT OF BEARBERRY (Arbutin) inhibits the formation of discoloration.

LUMISKIN[™] whitening ingredient actively inhibits melanogenesis.

REDLESTINE reduces irritation, improves microcirculation.

BIOCALMIN soothes irritation and redness.

PROLIVIN fights signs of skin fatigue - swelling and unhealthy skin tone.

CHRYZOXYL peptide eliminating bruising under the eyes.

ACTIVE FORMULA ENRICHED WITH:
HYDRO-FACTOR, XERIFIN, ALLANTOIN, OIL ROSE, PLANT
EXTRACTS: PUNARNAVA, PARSLEY, RASPBERRY,
POMEGRANATE, CUCUMBER, GREEN TEA, COCOA, CHESTNUT,
LIME. BUTCHER. PINEAPPLE

FERULASHI Lipid Repair

REJUVENATION AND LIPIDS REGENERATION FOR SENSITIVE AND ATOPIC SKIN

Innovative, rejuvenating program for regeneration of the lipid area, all-year-round use for sensitive, reactive, very dry, mature, atopic, prone to allergies skin, even after invasive aesthetic and medical treatments. Provides strong multi-dimensional hydration, lipid supplementation, rejuvenates and smoothes skin. Brings comfort and calming relief.

Innovative active base of the preparations for exceptionally difficult skin care treatment contains: gently exfoliating and antioxidant ferulic and shikimic acids, intelligent rehydration components, lipid formation components, soothing and calming components. Preparations FERULASHI: concentrate and the day and night creams are created on the special emollients basis, which gives a unique combination of liquid crystal structure corresponding to the physiological structure of the skin - perfectly supplementing rehydration and lipids in a layered manner.

FERULASHI EFFECT

lipid barrier regeneration and skin smoothing strong, multi-dimensional moisturizing regulation of exfoliation relief, soothing and calm comfort increasing skin tolerance to aggressive irritants

Preparations are dermatologically tested, non-perfumed, do not contain parabens, detergents or soap. Day care cream contains only mineral filter.

UTRA SOFT LIPID REPAIR CLEANSING GEL

For face skin and skin around the eyes, thoroughly removes impurities and waterproof makeup. Smoothes, with anti-irritating effect, regenerates the lipid barrier. Contains Emoliand QS - concentrate of saponins from Quillaja Saponaria Andean tree and Immuno-Basam & Biosensit plant extracts.

CD0117 200 ml

SMOOTHING LIPID REPAIR TONER

Smoothing and soothing toner with moisturizing and anti-free radical properties. Regenerates the lipid barrier, reduces irritation. The active formula contains moisturizers Lactin and macromolecular hyaluronic acid and soothing extracts of 1MDa Immuno-Basam and Biosensit.

CD0217 200 ml

EYE & LIP LIPID REPAIR CREAM

Rejuvenating and regenerating lipid barrier. Hydrates, soothes irritation symptoms. Contains Ceramigen and Sensors, emollient and lipid-forming ingredients, intelligently rehydrating Hydraquench IQ, water increasing reserves Hydraxil and Lactin, soothing extracts Immuno-Bsasm and Biosensit. Can be used under makeup. CD0620 30 ml

FERULANI 18% LIPID DE-AGEING CONCENTRATE

With a liquid crystal structure and ferulic and shikimic acids; gently exfoliates and softens. Regenerates the lipid barrier, hydrates and stimulates collagen synthesis. Relieves symptoms of irritation, has antioxidant and anti-free radical properties. Rich formula contains anti-aging active ferulic and shikimic acids, rehydrating - Hydraquench IQ and Hydraxil, lipid-forming and emollient Ceramigen & Skinceram and soothing Sensoren.

CD1387 30 ml

PREPARATION EFFECTIVENESS CONFIRMED IN APPARATUS-BASED RESEARCH*

- increased lipids in hydro-lipid layer of the skin by 143%
- decrease in transepidermal water loss by 130%

* The research was confirmed by two independent laboratories.

Group of 10 test subjects within 3 months of testing, 2013r.

LUXURY FERULIC ACID DAY CREAM UVA/UVB

Rejuvenating lipid cream with the liquid crystal structure, with ferulic acid that has anti-free radical, brightening, collagen synthesis stimulating properties. Seals the lipid barrier, with anti-free radical and anti-bacterial properties, intelligently adjusts water hydration to temperature and humidity. Gives the smooth skin comfort, leaves skin hydrated and soothed, without feeling "oily". Contains ferulic acid, Hydraquench IQ, Skinceram, Sensoren, Biosensit and SPF20 mineral filter.

CD1385.50 ml

LUXURY SHIKIMIC ACID NIGHT CREAM

The rejuvenating lipid cream with a liquid crystal structure and shikimic acid. Regenerates the lipid barrier and gently exfoliates. Actively moisturizes and reduces transepidermal water loss. With antibacterial properties, relieves symptoms of irritation. Contains shikimic acid that gently softens and removes dead skin cells without the effects of irritation, redness and dryness; and emollient components that moisturize and have anti-bacterial properties: Immuno-Bsasm, Hydraxil, Skinceram, Lactin, Biosensit and extract Curcuma Longa.

CD1386 50 ml

TOPICAL RELIEF LIPID REPAIR BODY SERUM

For topical use, reduces the feeling of itching and roughness. Hydrates and regenerates the lipid barrier, soothes irritation symptoms. Contains Asensyl - tetra peptide increasing tolerance level of the hypersensitive skin, reducing the sensation of pain and discomfort by reducing skin reactivity. The preparation is also rich in moisturizing, antibacterial, soothing and antioxidant ingredients: Asensyl, Sensors, Skinceram, Immuno-Basam, Biocalmin, shikimic acid, Hydraquench IQ.

CD1785 30 ml

RELIEF LIPID REPAIR BODY BALM

Soothing, rehydrating, regenerating the lipid barrier of the skin. Rebuilds the protective barrier functions, regenerates the hydrolipidic film, intelligently rehydrates. Soothes irritation, reduces tension and discomfort of roughness, anti-bacterial and anti-inflammatory properties. Contains Sensoren, Skinceram, Hydraxil, Lactin, Hydraquench IQ, Immuno-Basam, Shea butter, Biosensit.

CD1786 200 ml

FERULASHI Lipid Repair ACTIVE FORMULA

SHIKIMIC ACID from star anise, gently exfoliates without irritating and drying skin. Has moisturizing, anti-inflammatory and antibacterial properties. Can be used all year round with adequate sun protection. The effect of 5% shikimic acid is comparable to a 50% glycolic acid, but without the risk of irritation.

FERULIC ACID is a powerful antioxidant from cereal grains, eliminating free radicals, photo-protecting, depigmenting. Stimulates the synthesis of collagen and elastin, moisturizes. It can be used all year round with adequate sun protection.

HYDRAQUENCH IQ intelligent adjustment to environmental conditions, seals the lipid barrier, increases protection against aggressive external factors. Smoothes and brightens.

CERAMIGEN technologically advanced concentrate of ceramides, cholesterol, with behenic acid and Sphingokine® complex. Moisturizes, regenerates, restores the barrier function of the skin.

SKINCERAM emollient and regenerative component of the epidermal lipid structure, increases the tightness of barriers and hydration.

SENSOREN moisturizes skin, soothes redness instantly. Strengthens the hydro-lipid barrier and immediately moisturizes.

ASENSYL soothing tetra peptide, reduces the sensation of pain and discomfort.

HIGH MOLECULAR WEIGHT HYALURONIC ACID 1MDa highly moisturizes and smoothes, restores proper tension and elasticity of the skin.

BIOCALMIN soothes, moisturizes, regenerates.

HYDRAXIL moisturizes and reduces transepidermal water loss.

LACTIN highly moisturizes; rich in NMF reacting substances. **TITANIUM DIOXIDE TiO2** mineral sunscreen.

ACTIVE FORMULA ENRICHED WITH: cleansing QS EMOLIAND, smoothing BIOSENSIT, antibacterial IMMUNO-BSASM and anti-inflammatory CURCUMA LONGA

BODY SKIN THERMO FASHION

BODY SLIMMING AND MODELLING

Line with strong anti-cellulite and slimming effects. Systematic use of preparations gives spectacular effects, such as: reduction in the amount and change of the structure of adipose tissue, modeling imperfections of selected parts of the body and eliminating the "orange peel" effect. Preparation also significantly improves the density, firmness and hydration of the skin.

BODY SKIN THERMO FASHION EFFECT

slimming and body shaping
cellulite reduction
strengthening firmness, elasticity and density of the skin
restoration of skin homeostasis
moisturizing and smoothing the skin

TEA BODY PEEL

ANTI-CELLULITE & SLIMMING

Active peel with 12 active ingredients, has a rich smoothing, firming, moisturizing formula; improves skin elasticity and stimulates the metabolism of fats. The preparation also contains purifying and exfoliating substances, as well as redness reducing, cleansing, cell renewal stimulating and slimming plant extracts that pomote detoxification, accelerate metabolism, burn fat cells and reduce cellulite.

CD1880 200 ml

SLIM -ESTHETIC CONCENTRATE

Rich formula of 19 non-perfumed, slimming, firming, modeling and smoothing active ingredients. Includes modern biotechnological and plant substances that accelerate fat metabolism and stimulate blood circulation. Preparation promotes slimming and detoxification. Cleanses, soothes and refreshes. Improves blood circulation, prevents aging process, reduces swelling, improves skin condition and vitality. CD1882 100 ml

SLIM-ESTHETIC CINNAMON CREAM

Formula of 21 active ingredients. Reduces fat storage in cells, stimulates fat burning (lipolysis), and prevents the formation and accumulation of new fat layers. This allows reducing the thickness and the volume of fat, while refirming skin and strengthening of elastic fibers. Alleviates inflammatory reactions caused by trans fatty acids derived from improper diet. Improves blood circulation, prevents aging, improves skin condition and vitality. CD1881 200 ml

VERY RICH of

INGREDIENTS
ACTIVE FORMULA

CELLU-ESTHETIC GEL CONCENTRATE

Rich formula of 20 non-perfumed, anti-cellulite, firming, shaping, skin elasticity increasing, soothing and microcirculation stimulating active ingredients. The concentrate contains intensive, biotechnological and plant substances reducing cellulite. Accelerates the processes of detoxification and removal of metabolic waste. Strengthens the support fibers and reduces swelling. The result: smooth, refirmed skin and visible cellulite reduction.

CD1884 100 ml

CELLU-ESTHETIC GRAPEFRUIT CREAM

Rich formula of 22 active ingredients; cellulite reducing, smoothing and firming grapefruit cream. Contains intensive biotechnological and plant substances that stimulate microcirculation, lymphatic drainage, removal of cellular metabolism toxins. Accelerates lipolysis, releasing excess fat from adipocytes and reduces their size. Reduces swelling and strengthens support of elastic fibers. Visible effects: cellulite reduction, skin hydration and brightened skin tone.

CD1883 200 ml

BODY SKIN THERMO FASHION ACTIVE FORMULA

HESPERIDIN active bioflavonoid stimulates microcirculation. Accelarates removal of the metabolic process waste. Strengthens capillaries and helps maintain the correct structure of collagen.

LIPOGENCE reduces fat by inhibiting the maturation of fat cells and their accumulation. Reduces water retention and improves microcirculation

RESLIMED reduces the thickness and volume of adipose tissue while firming the skin.

LIPODRAIN-3 stimulates the burning of fat and reduces fat storage in cells.

SALICYLIC ACID BHA cleanses pores.

AZELOGLICYNA® increases the elasticity of support fibers, has moisturizing properties.

EMOLIAND QS with moisturizing and smoothing properties.

REDUSLIM yerba mate and green coffee complex - increases the release of stored fat.

EXTRACT PEARLS stimulates hydration, improves blood circulation, inhibits aging process.

SKINCERAM regenerates the skin lipid structure.

EYE SKIN CARE

Eyes and their areas are one of the most important elements of feminine beauty. The skin around the eyes is delicate, sensitive and prone to irritation, constantly exposed to atmospheric factors such as harsh sun, wind and frosty air. It is there where the first wrinkles called crow's feet appear more often/quicker. It is advised to use special UV protection for and take special care of this skin area. Making your own skin care kit, choose a cleansing preparation from SPECIAL AESTHETICS group, suitable for the type and the problems of your skin.

SPECIAL AESTHETICS LUXURY FYE MAKE-UP REMOVER

Thoroughly removes all impurities, including waterproof mascara. Contains cleansing, gentle saponins of common soapwort and smoothing, moisturizing and soothing extracts of marigold, horsetail, hamamelis, sage and green tea, which reduce swelling, improve the condition of capillaries and skin elasticity. Prevents irritation, softens and soothes skin.

Application: Preparation for even the most sensitive skin under the eyes and eyelids, ensures the comfort of gentle and thorough cleansing.

Active formula: extracts from the common soapwort, marigold, horsetail, hamamelis, sage and green tea

CD0622 100 ml

LA AQUA EYE & LIP MOISTURISING RENEWAL CREAM

Non perfumed moisturizing and smoothing cream with elastic fiber renewal technology and NMF ingredients, shallows furrows and wrinkles, refirms skin. Contains hydration stimulating substances and collagen: beta-glucan, Hydra-filaggrin, Lactin, lactic acid esters, Hydro-Factor, urea. Licorice extract, rose oil, hydrolyzed silk, vitamin E, allantoin and emollients additionally enhance the regenerating and rejuvenating properties. CD0625_30 ml

CAVIAR CARE 40+ BOTOSINE 20% INTENSE PEPTO-SERUM FACE & EYE

Intensive Serum reducing mimic and age wrinkles and around the eyes and mouth wrinkles - an excellent alternative to surgical treatments of botulinum toxin injections. A high concentration of neuropeptide Botosine (Argireline") enhanced with pro-collagen formula Oligomatryl* and caviar extract give visible wrinkle shallowing effect. Also contains soothing and regenerating provitamin A, vitamin E and allantoin.

CD1331 30 ml

SPECIAL AESTHETICS

LUMI - CREAM FACE & EYELID BRIGHTENING PEELING

Gentle exfoliating preparation effectively smoothes and brightens, evens skin tone and reduces spots of different etiology. Contains papaya enzymes, purifying the saponins of common soapwort (saponaria), hydrating and keratinization stimulating rhubarb extract and brightening Indian Punarnava exotic plant extract.

Application: Suitable for all skin types, including sensitive and vascular. Also ideal for the skin around the eyes.

Active formula: papaya enzymes, extracts of common soapwort, rhubarb and Punarnava CDO413 50 ml

FERULASHI

EYE & LIP LIPID REAPAIR CREAM

Rejuvenating and lipid barrier regenerating cream. Hydrates, soothes, calms irritation symptoms. Contains emollient ingredients and lipid-forming Ceramigen and Sensoren, intelligently rehydrating Hydraquench IQ, water reserves increasing Hydraxil and Lactin, soothing Immuno-Bsasm and Biosensit extracts. Can be used under makeup.

CDO620 30 ml

RED STOP

EYE PERFECTOR UNDER EYE KIT ANTI DARK CIRCLES

Rejuvenating kit including moisturizing and brightening serum with PHA acids, plant extracts and cream with peptides reducing dark circles and bruising under the eyes. Preparations are dedicated specifically to sensitive skin under the eyes; shallow wrinkles and brighten skin tone. With antioxidant, soothing and softening properties. Eliminate swelling, strengthen capillaries and brighten skin tone.

Active formula: lactobionic acid and gluconolactone, a complex of polypeptides, vitamin C-SAP, lemon, butcher's broom, horsetail, ivy, lime, green tea, melon, soapwort, papaya extract, allantoin, vitamin E, macadamia oil

CD1631 1x2.5ml+ 1x15 ml

C'MODULAR AGE REVIVE C5% BRIGHTENING EYE CREAM SPF15 UVA/UVB

Rejuvenates, reduces wrinkles around the eyes, improves skin elasticity and stimulates cell renewal. Brightens, reduces discoloration. Increases the antioxidant protection of the skin. Contains vitamin C - SAP and AA 5% and special UVA/UVB in capsules for day and night use. Formula enriched with active peptide hyaluronic acid stimulator, moisturizing Hydro-Factor and anti-free radical C'Tyrofix, Lumiskin", plant extracts, rose oil, vitamin E.

CD0606 30 ml

LIFT PEPTANGO R LIFT PEPTIDE EYE CONTUR CREAM

Non-invasive correction of upper eyelid contour without a scalpel, inspired by aesthetic medicine. Rejuvenating cream strengthening the architecture of the skin around the eyes, reducing bruising and swelling, shallowing wrinkles. Includes an innovative component Beautifeye", which by strengthening skin structure and increasing fiber shrinkage lifts the upper eyelid fold preventing it from falling and reduces "crow's feet". Lightens dark circles under the eyes, reduces the feeling of fatigue by improving density of microcappillaries network and reduces the accumulation of pigments.

CD0635 15 ml

SPECIAL AESTHETICS

AFTER NIGHT SERUM FACE & EYE FIRMING PEPTIDES & BIORETINOL A

Non-perfumed, strongly rejuvenating night serum for face, neck and eye area, with effective smoothing wrinkles, lifting and firming properties. Recommended also for supporting the effects of aesthetic and medical treatments. Contains Renestril, anti-aging peptide complex stimulating skin elasticity reconstruction, peptide biomimetic GLI complex- controlling the correct reconstruction of the epidermis; DHMC - regulating the process of keratinization and normalizing transepidermal water loss, and soothing plant extracts. Application: Suitable for all skin types.

Active Formula: Renestril, Complex GLI, DHMC, a derivative of vitamin A, plant extracts of linden tree and hamamelis.

CD1396 30 ml

C'MODULAR AGE GABA Cx 35% FILL-IN EXTREME WRINKLE FILLER FACE & EYE

Innovative concentrate with Cx GABA complex, spectacularly rejuvenates face skin, eyelids and areas under the eyes. Immediately and permanently reduces wrinkles due to its unique formula of botanical neurotransmitters and silicone polymers. The innovative nerve synapses blocking mechanism causes muscle relaxation and clearly visible smoothing of the skin. Silicone polymers optically reduce wrinkles with Soft-focus effect. The preparation stimulates the synthesis of collagen and hyaluronic acid.

CD1342 30 ml

NUTRI MAXX 40+ HYALUGENE 12,5% SERUM FACE & EYE

The advanced 12.5% formula of highly concentrated moisturizing ingredients, lifting and inhibiting skin aging. Low-molecular weight hyaluronic acid enhances in-depth moisture, elasticity and smoothing of wrinkles. Modern peptides: HYA-stim that stimulates the production of hyaluronic acid and shallows wrinkles from the inside, and the ageing delaying and refirming Skin Matrix ensure rejuvenation and contour improvement. Pseudohormone DHEA-like improves skin density and elasticity, hydration and micro-texture. The skin is visibly hydrated and soft, rejuvenated, with improved elasticity and enhanced facial contour. CD13.37 30 ml

ESTRINI 50+

FUNDAMENTAL YOUTH REPAIR CONCENTRATE FACE & EYE

Sandalwood oil concentrate for night and day use, in day care – for use before the day cream application, rejuvenates the skin texture, reduces the symptoms of hormonal aging, with rich 26% formula of phytoestrogens, peptides and antioxidants. Phytrodial complex replenishes estrogen shortage, enhances skin elasticity, circulation and tone. Low molecular weight peptides Matrixin6, Synpept and original Menoskin are a powerful dose of rejuvenation: smoothe wrinkles, hydrate, refirm and improve face contour. The anti-aging formula is supplemented by powerful antioxidants - Chromoderm and Skinguardd.
