

VIT VIT OX

Cell renewal Micro facelift without surgery

Description / Use:

Serum designed to remove dead skin cells thereby promoting cell renewal, relaxing the skin and de-stressing the most heavily lined areas. Contains neuropeptides and other natural active ingredients that stimulate pro-endorphin production; cutaneous energizers that suppress the muscle contractions (botox-like effect) responsible for expression lines. Other ingredients also help stimulate the skin's matrix, reducing cutaneous flaccidity. Re-sculpts facial contours, hydrates, nourishes, restores, illuminates and preserves the face's firmness.

Appearance: Off-white serum with a subtle woody-floral scent.

Ingredients:

Aqua (Water), Aloe Barbadensis Leaf Powder* (Aloe Vera Gel), Cyclopentasiloxane, Propanediol, Glyceryl stearate SE, Butylene Glycol, Tri-C14-15 Alkyl Citrate, Butyrospermum Parkii (Shea) Butter, Dimethicone, Sodium PCA, Ceteth-20, Dimethiconol, Cetearyl alcohol, Glycereth-26, Steareth-2, Argania Spinosa (Kernel) Oil, Olea Europaea (Olive) Fruit Oil*, Rosa Moschata Seed Oil*, Simmondsia Chinensis Seed Oil*, Acetyl Dipeptide-1 Cetyl Ester, Hydrolyzed Sesame Protein PG-Propyl Methylsilanediol, Silanetriol, Zizyphus Jujuba Seed Extract, Phytococysteinoids, Bacillus Ferment, Sodium Hyaluronate, Cyamopsis Tetragonoloba (Guar) Gum, Xanthan Gum, Acrylamide/Sodium Acryloyldimethyltaurate Copolymer, Laureth-3, Hydroxyethylcellulose, Isohexadecane, Glycerin, Propylene Glycol, Polysorbate-80, Acrylates Copolymer, VP/Polycarbonyl Polyglycol Ester, Sodium Gluconate, Behenyl alcohol, BHT, Glyceryl Polyacrylate, Sorbitan oleate, Hydroxyisohexyl 3-cyclohexene Carboxaldehyde, Butylphenyl Methylpropional, Hexyl Cinnamal, Benzyl Salicylate, Linalool, Phenoxyethanol, DMDM Hydantoin, Potassium Sorbate, Sodium Benzoate, Parfum (Fragrance).

Active ingredients:

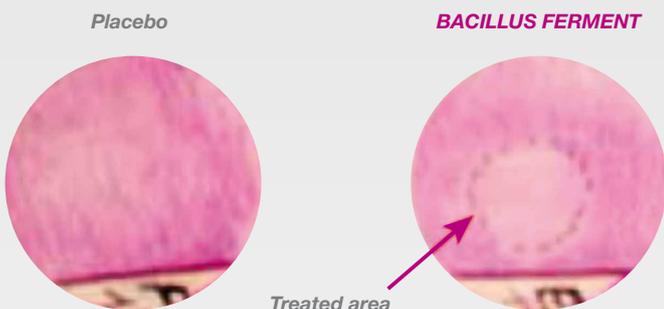

Acetyl Dipeptide-1 Cetyl Ester: This lipopeptide stimulates the synthesis of pro-endorphins, considered to be wellbeing hormones which have an energizing effect on the skin and suppress the muscular contractions responsible for the appearance of expression lines. Regulates the perception of unpleasant sensations. Emphasises the skin's wellbeing. Prevents the formation of expression lines.

VIT VIT OX

Cell renewal

Micro facelift without surgery

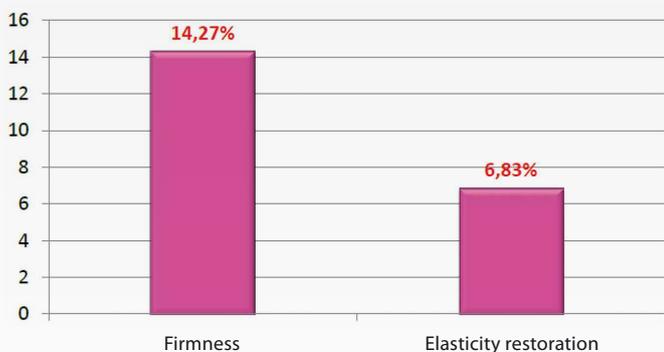

Bacillus Ferment: An enzymatic exfoliator with proteolytic action which gently removes dead skin cells, smoothing the surface of the skin and promoting cell renewal.

Decrease in colour intensity after applying bacillus ferment, removing dead cells.

Zirhafirm (Zizyphus jujuba Seed Extract, Phytoecdysteroids)

The combination of triterpenic derivatives from Zizyphus jujuba, Zizyphus jujuba seed extract and Maral root phytoecdysteroids work together to change the gene expression of several important components in the bonds and structures that maintain cohesion of the skin's layers. This action allows the skin to restore and preserve its firmness and elasticity, improving definition of the facial contours.

Results of a study carried out on 20 women between 40 and 55 years old, after a twice daily application for 56 days. The synergy of triterpenic derivatives from Zizyphus jujuba, Zizyphus jujuba seed extract and Maral root phytoecdysteroids improved skin firmness by more than 14% and restored elasticity by almost 7%. The restoration of facial contours was also evaluated, and resulted in a redefinition of the facial oval of up to 22.5%.

Hydrolyzed Sesame Protein PG-Propyl Methylsilanediol

Ingredient derived from sesame that gives an immediate tightening effect, smoothing skin imperfections, firming and deeply hydrating and providing a feeling of comfort all day long.

Before applying.

5 minutes after applying a solution of 10% Hydrolyzed Sesame Protein PG-Propyl Methylsilanediol

Secondary ingredients:

Aloe Vera Gel, shea butter, olive oil, argan oil, rosehip oil, jojoba oil, hyaluronic acid.

Dermatological testing:

VIT VIT OX micro lifting without surgery. Cell renewal has undergone dermatological testing to check its tolerance. The study was carried out on 30 people between 24 and 61 years old. None of the participants showed any allergic reactions, thereby showing the product to be safe. *

**This statement cannot be applied to people who may be allergic to one of the ingredients in the formulation.*
